

GRAND COUNTY WATER CONSERVANCY DISTRICT  
SPECIAL SERVICES WATER DISTRICT

Special Meeting, -----May 31, 1983

The meeting was called to order at 7:00 A.M. at ATTENDANCE  
the Ramada Inn by the Chairman, K. E. McDougald. Other  
Board members present were William Hines, Everett Schumaker,  
Robert Norman and Sam Taylor

Special Services Board members present were:  
K. E. McDougald, Everett Schumaker and Dan Holyoak.

Also present were Laura Rainey, Bookkeeper, Dale  
Pierson, District Maintenance Man, David J. Bretzke,  
Executive Director, and Roberta R. Highland, secretary.

David Bretzke requested Ed Claus of Claus &  
Adkison to make a proposal to computerize the bookkeeping  
of all three districts. It was read and discussed. Sam  
Taylor suggested we try more help in the office before we  
contract the bookkeeping out for a long period of time.  
Laura Rainey reported on the methods presently used in the  
hand posting of three different sets of books, and stated  
the information would be given to Claus & Adkison from the  
meter books and receipts, and would be fed by them into the  
computer. She stated that the office would still issue all  
checks, and that the Claus & Adkison proposal would cut the  
present time spent by an office bookkeeper from six to eight  
hours to one to two hours daily. K. E. McDougald stated  
that since both districts are involved, this board should  
not take any action until the other board meets and acts on  
the proposal. The possibility of hiring a clerk/meter  
reader was discussed.

CLAUS &  
ADKISON  
PROPOSAL

Dale Pierson reported on the conditions at the  
tunnel and it was reported that a part time worker had  
been hired to help with cleaning out the trash racks at  
the diversion structure and tunnel.

CONDITIONS AT  
THE TUNNEL

Everett Schumaker suggested the Water Commissioner  
attend the meetings, and questioned the advisability of  
using the lake spillway. It was reported that the engineer  
had suggested that the spillway be used, at least for a  
day, to settle the rocks at the spillway.

A general discussion was held on the sewer project,  
the proposed extension to All American Acres, and the sur-  
veying problems.

The meeting adjourned at 8:00 A.M.

ATTEST:

  
David J. Bretzke, Secretary

  
K. E. McDougald, Chairman
