

ALL IN A DAY'S SURVIVAL

A vibrant and chaotic movie poster for 'The Croods: A New Age'. The central focus is a large, white-furred, blue-tinted wolf-like creature with a wide, toothy grin, its mouth open as if laughing or shouting. It has a bright green patch on its forehead. Surrounding it are various characters from the film, including a man with a large brown mane, a woman with red hair, and several children, all appearing to be in motion or falling. The background is a bright blue sky filled with numerous colorful, fantastical flying creatures and animals, such as a large yellow insect-like creature, a blue bird-like creature, and a red and black donkey-like creature. The overall scene is one of a wild, prehistoric world filled with diverse and imaginative life forms.
