

"Teach so **all** can learn, do, and be."

bridge2success provides **comprehensive, cooperative** educational services for children and adults to prepare them for higher education or a career.

Comprehensive. We offer a full range of classes for all ages from elementary math to high school English and Spanish and college prep; we also offer study skills and academic coaching.

Cooperative. **bridge2success** comes alongside and works with parents and schools to help make classes easier to understand for students. We complete the educational experience!

Our tutors are well trained in the subject areas, and their strengths include a number of subjects for a cross-disciplined approach to instruction, for example, teaching reading comprehension helps students understand math problem solving.

- **Face-to-face** – We are able to meet your child at your home or local library—at your discretion.
- **Video-conferencing** – We offer our tutoring on webcam (Skype or FaceTime).
- **Phone or chat** – Upon request, we give academic assistance by phone call or on chat (Facebook, for example).

Your Connection to Academic Preparation

Standardized Test Preparation

Are your children preparing for a new high school? Perhaps they are getting ready for college? Let **bridge2success** be your guide.

Middle & high school entrance testing HSPT, ISEE, SSAT, etc.

HSPT, ISEE, SSAT are among the more prominent tests given by public and private schools in the admissions process. We help your child prepare for the rigors of these entrance tests.

We also walk them through essay-writing with mock-interviews included, giving your middle- or high-schooler-to-be a jump start!

College preparation (SAT, ACT, PSAT)

Perhaps the most overlooked detail in college preparation is college and scholarship testing.

Did you know

- The PSAT is also called the NMSQT (National Merit Scholarship Qualifying Test), and scholarships are available for juniors who take this test?
- Schools rarely prepare students for the PSAT/NMSQT test?
- By knowing the strategies of the SAT and ACT, your child can **drastically** improve his/her scores?

We have considerable success raising students' scores for college entrance. Sometimes it's the tips that help; other times, the academic review of reading, writing, and math. Both are offered in our SAT/ACT preparation classes with individualized preparation and group-interactive sessions.

Subjects Available Through b2s

Following are some of the classes available for tutoring and classes:

- **Math** – elementary math, pre-algebra, Algebra 1, geometry, Algebra 2, trigonometry, pre-calculus
- **English/Language Arts** – elementary, middle, and high school grammar, writing, spelling, literature, essay and research paper preparation
- **Science & history** – biology, chemistry, physics, physical science, US and world history, government
- **Foreign language** – French, Spanish, English as a Second Language (ESL)
- **Study skills/coaching** – organization and study strategies

bridge2success works with students who need remediation as well as those who are in advanced programs.

Alternative education & co-ops

We provide classes in the above available subject areas specially tailored for small-group instruction over the school year or semester.

The tutor is responsible for lesson plans, grading, and in-class assistance. This alternative is especially helpful for homeschool co-ops, which request outside academic consulting and instruction. These classes can be conducted in person or via video-conferencing.

GED & pre-GED preparation

The journey to college begins with completing high school, but sometimes that completion is delayed.

bridge2success has instructors who have considerable GED teaching experience in reading, writing, and math and have seen many students successfully gain their high school diploma.

We are with our students from the pre-test stage through to signing up for the test.

Did you know

- In Maryland, getting a GED is the same as earning a high school diploma?
- Gov. Jon Huntsman, Chris Rock, and Angelina Jolie have earned their GED?

(<https://www.thoughtco.com/celebrities-with-ged-list-no-1-31303> and [...no-2-31304](https://www.thoughtco.com/celebrities-with-ged-list-no-2-31304))

Our Director

Ron Harrison, the director of **bridge2success**, has a diverse, 20+ year teaching and tutoring experience. He has worked in administration for almost ten years, overseeing the successful re-accreditation of two Maryland schools, and has taught a wide variety of subjects from math and language arts to foreign language and literature—in the classroom, one-on-one, in small groups on the elementary, middle, and high school levels.

His extensive involvement in private, public, and homeschooling education allows him to meet the diverse needs of today's student. His passion is to give parents and schools a "right-arm support" to their child's education. He understands the community, and he raises academic standards to meet the challenges that the community brings and that parents and schools demand.
