a. Budget Update

- School Board meeting is very interesting if you haven't been so you can see why it's important to vote and what the elected members get behind and don't get behind. If you can't go, check out the minutes. Governor's budget did go through and it will impact our school but we don't know exacts at this point. Which makes what we do more important.
- Staff is limited in what they can say and information they can provide. We will add an area to our website so that parents can go there to update on board, fiscal, legislative decision making.
