Re: Fatigue Management Committee Questions for NASA and NASA's Scope of Work

Dear Mr. Fassburg,

We are in receipt of your letter dated March 29, 2019 and acknowledge your subsequent conversation with our Assistant Attorney General Albert Wang on April 3, 2019.

Regarding the NASA questions, we respectfully remind you that Captain vonBrandenfels welcomed questions from the Fatigue Management Committee without parameters. For the information of the Fatigue Management Committee and this Board, we strongly encourage Captain vonBrandenfels to respond to the questions to the extent feasible.

Regarding the scope of work between Puget Sound Pilots and NASA, we acknowledge your decision not to share it as a part of the process for setting the number of pilots. Thank you for the summary attached to your letter.

The Board continues to develop the procedures and guidelines for setting the number of pilots. In the meetings leading up to the hearing on July 18, 2019, questions regarding data and presentations will be limited to Board members. After presentations and Board questions there will be an opportunity for public comments at the Chair's discretion.

We plan on developing an agenda for the hearing as well as a structure for the final document of record for the Board's decision.

Best regards,

Sheri J. Tonn, Chair  
Board of Pilotage Commissioners

cc: Albert Wang
