

October 12, it's 40 degrees and raining here, after the 70 degrees and sun just two days ago it's depressing. I wanted to ride to the R .C. meeting, but 100 miles in this shit, it's just not going to happen. It is my hope that the Manido of the south will again send some warm weather soon so I can get one or two rides in before snow flies.

ABATE BOD wants people to contact legislators to back the bill that would make your car insurance primary in case of a motorcycle accident. We can't depend on other people to have adequate coverage to not put us in bankruptcy even if they are the ones who put you in the hospital, S.B. 528 and I think the house bill is 4812.

So far I've had nobody step up to be on the region board, so I will continue to hold the position of Region Coordinator. There is a little money left in the treasury so since nobody seems to give a shit, I will use it as I see fit.

That's it for now, I'm sure to have more to write next month after the meetings today.

Nick

Region 9 R.C.
