Sherah Blankenship (Weight Loss with SunTrim® Plus)

I first heard about SunTrim® Plus when Kathy Cook told me about it. She knew about my struggles with weight and encouraged me to try it. I had experienced good results with other Sunrider® products and did not get the jittery feeling that I got with a lot of other products. I had tried green tea pills for weight loss and they made me jump out of my skin. I had great results from Calli® and Fortune Delight®, so I decided to give it a try. I was again hoping to not have jittery sensations and I didn't.

I felt wonderful taking it. I would feel hungry before a meal, but when I actually starting eating, 5-7 bites were about my limit. You learn to choose carefully what you want to eat. I lost a few inches, but the most dramatic change was in my hips.* I had a pair of pants that I had purchased at Christmas time and worn only once because I was busting at the seams. However, I tried the pants on again in April for a job interview and to my surprise they fit fantastic and were even a little loose!* I didn't drink Fortune Delight® with SunTrim® Plus 30 minutes before I eat as recommended, though, and I am sure I would have had even better results doing that.

Give it a try. We have all tried numerous products during our years of weight-loss struggles, but Dr. Chen has come up with the magic formula on this!

**In conjunction with a healthy diet and regular exercise. Results not typical.*
