

***Educating ► Equipping ► Engaging ► Empowering***

**Our Vision:** The landscape of the Eden Park Community is empowered, connected, and transformed by the church and community working together through the power of Jesus Christ.

### **Mission, Message & Vision**

**Our Mission:** To help individuals to become viable contributors to the health and well-being of their homes, neighborhoods, and community.

**Our Goal:** To link individuals with tools, networks, and resources that will strengthen the community.

**Our Message:** *It Takes A Village.*

**Our Tool:** A Coalition - Church and community coming together to tie into the mission. Partnering and collaborating (to engage in dialogue and to explore new ways to rebuild our community).

**Note:** We are working toward the day when the community (the village) has the tools, the knowledge and the resources they need to operate at its fullest potential.

***Someone once said, "If you want to be effective, be an ear to the ground, listening to the cries and longings of our people, and the other ear to the voice of God."***
