Wednesday, April 12: PSAT test for sophomores

Information about state testing may be found on the OPI website opi.mt.gov

FCCLA

Students – State Leadership Conference – Bozeman

By C. Wittak

Scobey FCCLA students competed in Bozeman and represented our school and community very well. Kinsey Anderson, Emmie Fishell and Sophia Handran received a Gold in National Programs in Action with their Distracted Driving Project. Anna and Joy Williams received a Silver in their Nutrition and Wellness Project. They tracked their eating and exercise habits and researched a variety of topics that affect their health. Kaze Trower and Hadley Maher received a Silver in their National Programs in Action competition with their Kind in the Mind Project. These two worked with the 3rd grade about a variety of ways to show kindness to others and be aware of what we say to others. Luke Cromwell and Ryan Halvorson participated in Leadership Training and presented their Nutrition and Wellness Project. All students attended workshops, leadership trainings and a College and Career Readiness Fair held at MSU – Bozeman. They also had a tour of the Rendezvous Food Service and went behind the scenes of the huge food court at the campus. Nik Tokman, from the Deadliest Catch, was the keynote speaker. He shared his story about overcoming adversity, being resilient and happy throughout his journey to be on the boat of his dreams on the Deadliest Catch. Scobey Students also received \$1,000 for their Distracted Driving Project and will use that money for further training and projects. Thanks to the Boosters for their constant support and to the community for helping the FCCLA students with their projects. This year was a success for our Chapter and we appreciate everyone's involvement in helping to accomplish our goals.

ELEMENTARY NEWS

SCIENCE SHENANIGANS

Science Fair

The fifth and 6th graders will be getting projects ready for the Science Fair. Students will have projects on display later this month for everyone to come and check out. This year we will have our Open House during the school day rather than after school like we have done the past. Stay tuned for a datell

In other news, Mrs. Olson's 4th grade class has started to tinker with the LEGO robot Spike. 5th graders are making K'Nex models and the 6th graders STEM project is to make a marble run.

The younger classes have worked with new science teacher Mrs. Holum and her freshman class. Science is happening everywhere!

ARC FIELD TRIP AND FUN DAY

It's no joke that April is starting out with a fun day. To reward students for winning the award for being a Distinguished School, grades K-2 will spend Monday, April 3rd bowling and at the movie. Grades 3-6 will be heading to Williston to enjoy a day at the ARC.

April 22, 2023

SPRING BREAK
April 7-10

KINDERGARTEN

In Kindergarten the kids celebrated Dudes with Donuts. Special "dudes" in their lives came and spent time reading with them. Who doesn't want to celebrate learning to read with yummy donuts. Reported by McKenna

THIRD GRADE NEWS

The March Reading Challenge is finishing up. The bulletin board in the hall is filled with books they have read. They are also learning about The Race Across America. In 1928 there was a race contest that started in LA and ended in NY. Reported by Arayah

OFFICE NOTES

It's hard to believe we are in the home stretch of the 2022-2023 school year. With that in mind, we just want to remind you that all students must be current for meal charges, fees/fines, and any other bills (breakfast store, music supplies, shop supplies, etc.).

The last day of school is Friday, May 26th. Kindergarten through grade 11 students will check out on that day. Seniors will check out on Friday, May 19th.

Now is a good time to have your kids check the lost and found for missing items.

If you have any questions, please contact the school at 406-487-2202.
