

I was sitting here wondering what to write about today and how I could encourage you when an old song literally flashed through my mind. It was a song by Gene Martin who use to open for the great evangelist AA Allen:

*“I’ve got it, I’ve got it. Something about the power of the Holy Ghost  
I can’t explain, but I’ve got it.”*

So I am going with it. Why? Because “I’ve got it” and you’ve got it. GRIN.

I know you know this....but today the Lord is reminding you of a very important truth. Through Jesus you’ve got it!!! That means whatever you need, when you need it, you’ve got it because of what Christ did for you.

Throughout Scripture, God promises He will provide. Story after story demonstrates God’s amazing ability to satisfy His children's physical, emotional, and spiritual needs.

I don’t know what you are dealing with today or what you need, but in Him “you’ve got it.”

Please hear me. I am not just talking about materialistic things, though He absolutely will provide what you need when you need that too! I am talking about any thing you need.

Here is the definition of need (just incase you don’t understand what a need is):

- a lack of something wanted or deemed necessary
- a situation or time of difficulty
- necessity arising from the circumstances of a situation or case

God is fully aware of our needs and the Bible tells us of how God wants us to come to him with every need and care and worry that we may have.

It is through Jesus and because of Jesus that we have everything we need. He is our continual source of provision in the natural and spiritual. It's because of Him that we sing, "I've got it!"

I love the Word and the truth it brings to our hearts. Provision is there. What do you need? Do you feel pounded by the enemy? He has redeemed you from the hand of the adversary (Psalm 107:2) and delivered you from the powers of darkness (Colossians 1:13).

What do you need? Health, hope, joy, restoration, sound mind...shall I go on? Peace, forgiveness, direction,

These are not just words written to sound good, they are truth. They are full of provision for whatever you need. My prayer is that the truth of this song gets stuck in your head and takes permanent residence in your heart!
