

Haier Biomedical

Intelligent Protection of Life Science

Product Overview
Complete Cold Chain
Solutions and More

Haier Biomedical

Intelligent Protection of Life Science

Complete Range of ULT Freezers (-80°C)

- TwinCool dual refrigeration models
- Conversion technology for ultra energy models
- World leading power consumption
- Reliable performance with temperature uniformity +/- 6°C
- Innovative cabinet design reduces operational noise

Wireless Energy, Temperature & Condition Monitoring

- Simple, smart and easy to install, no IT or LAN required
- Peace of mind 24/7 with SMS, email or call alerts
- Strong, safe, robust and fully compliant

Low Temperature Biomedical Freezer (-40°C)

- Energy efficient design with rapid cooling shelf evaporator and improved door seal to maintain cabinet temperature and reduce frost build up
- Lockable design to ensure maximum product security
- Multiple alarm functions for product protection and peace of mind

Laboratory Freezers (-25°C)

- Reliable performance, manufactured with high density foam insulation for rigidity and stable storage temperature
- LED digital display with alarms for clear observation
- Adjustable temperature -10°C ~ -25°C

Sparkfree Refrigeration

- Designed for applications where a potentially explosive atmosphere can temporarily or exceptionally occur as a result of air mixing with gases or vapours
- ATEX II C-T6 Certified
- Temperature range +3 to +16°C (Refrigeration)
- Temperature range -20 to -30°C (Freezer)
- Multiple alarms

Pharmaceutical Refrigerator

- Fan assisted cooling and auto defrost for improved temperature uniformity
- Audible and visual alarms
- Lockable design

Liquid Nitrogen Dewars and Tanks

- Smart models with IoT connectivity
- Robust and durable construction
- 5 year vacuum warranty
- LN2 containers and storage vessels
- Cryobox, blood bag, vials and straw storage options

Clean Air Solutions

- Laminar Flow
- Range of biological safety cabinets for protection of personnel, sample and/or environment
- Clean bench range with high-efficiency air filtration and ergonomic bench design

Blood Banks

- Adjustable shelves to optimise storage
- Battery backed up audible, visual and remote alarm
- Reliable design with condensation free glass door heater (ambient up to 32°C and 80% humidity)

Cold Chain Accessories

- CO₂ back up systems
- Stainless steel racking
- Freezer boxes

Our Services

Haier Biomedical UK has a dedicated UK based service support team and factory trained engineers, committed to providing ongoing technical support and maintenance to a wide variety of laboratory equipment. We offer a range of service contract options as well as ad-hoc breakdown services.

There are three levels of service contracts tailored to suit your individual service and maintenance needs.

Haier Biomedical UK can also provide flexible bespoke contracts and include services such as annual calibrations, temperature mapping or additional preventative maintenance visits.
