

# ECLIPSE OF THE CROSS

PROBABLE ASTRONOMICAL PROPERTIES OF THE ECLIPSE OF THE DRAGON

What is telling according to the Gospel accounts is that a Great Earthquake accompanied this Darkness over the entire Globe. It has been proven scientifically that at times, the Planetary Alignment of various Bodies do affect the Gravitational Forcefield of Earth and in turn triggers Earthquakes as pressure from the Tectonic Plates shifts as the Heating-Up of the earth's Core is also affected, etc. This study does agree with the work of Gil Broussard in that his models strongly suggest that a Heavenly Body 7 times the size of Jupiter eclipsed the Sun during the Crucifixion of Jesus, Planet X. Given the scenario that indeed the 3-Hour Darkness was attributed to the Solar Eclipse of the Sun by Nemesis, then the following can be conjectured based on the Angle and Alignment of the Planets as they were position on that day. For one, if the Earth was seen from a bird's eye view of the Solar System as being the Vertical Axis in Alignment with the Sun, then this means that the Nemesis Heavenly Body was in-between the Sun and the Earth. This would have and could only have produced the 3-Hour Solar Eclipse.

## PASSOVER

1. Blood Moon: Mid-Day
2. Blood Moon: Mid Night

Broussard proved Mathematically that the size of a Celestial Body would have exactly eclipsed the Sun for 3 hours. Thus, if this would have been the case, then there were indeed 7 Celestial Bodies spanning the sky from the East to the West having Planet X as the key and center Celestial Body in direct alignment vertically to the West of the Cross of Jesus. What this then further suggests pictorially is that such an array of Celestial Bodies composed a 'Celestial menorah' or sorts.

This is only to the degree that the Planets, the Constellations and the Stars could have been seen for the 3 Hours of Darkness and the Stars could have shown above the Stratosphere this Storyline. This illustration assumes that it would have been the case. This 'Celestial Menorah' would be in line with the theological understanding that as Planet X was the 'Center Stem', it snuffed-out the Light of the World as that is what Giant Red Dwarf Stars do, they absorb Light.

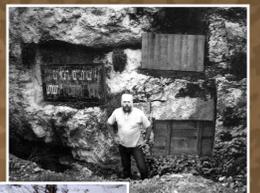

On Earth below, Jupiter corresponded to the one crucified between 2 males. As above, the Jupiter was juxtaposed between 2 male constellation in the heavens, that of Orion and Auriga. If the conjecture of the Planetary Array that day is valid, then the phenomenon of Planet X, the Red Dragon, Nemesis, etc., does exist.

### A COMING DARKNESS

Will such a time approach the reappearance of Nemesis and be the variable that will likewise cause the Darkness of the coming Kingdom of the Antichrist due the 6th Seal Judgment? Also, this means that Nemesis would have been somewhere in the Planetary Orbital Planes of Venus and Mercury. Based on current speculation and from mathematical models it is believed that Planet X, that is the Red Dragon is coming from the south in a clockwise direction.

### 7-HEADED RED DRAGON

It would also corroborate the many ancient recorded accounts of such a Celestial Body approaching Earth that caused worldwide catastrophes of varying degrees. They did depend on the degree to which the severity of the Flybys. The affect on Earth was then determined on the Angle, the place of the Mini-Solar System that interjected with the Planetary Planes due to its Debris Trail and on which side of the Sun the Earth was on. What is also interesting is that based on this angle, the Planet Jupiter is approximately 33 degrees from the Earth-Sun alignment.
