Sec. 6-24. - Animals at large prohibited.

- (a) No person having in his possession or ownership any animal or fowl shall allow the same to run at large within the village. The owner of any animal, whether licensed or unlicensed, shall keep his animal tied or enclosed in a proper enclosure so as not to allow said animal to interfere with the passing public or neighbors. Any animal running at large unlicensed and required by state law or village ordinance to be licensed shall be seized and impounded by a humane officer or the village police.
- (b) A dog or cat shall not be considered to be running at large if it is on a leash and under control of a person physically able to control it.

(Code 1986, § 7-1-6(c))

This question is actually pretty clear. In my opinion, if the dog is in its own yard (the property owned by its owner) then I do not think the dog is running at large and the animal is in a proper enclosure if the invisible fence is working. If the animal breaks through the invisible fence and is running outside the property owned by its owner, then the dog is running at large if not on a leash.

So, a dog can be in the general public if it is on leash. If it is off leash, the dog has to be fenced in or tied on the property of its owner.

Hope this helps. Let me know if there are other questions.

- (b) A dog or cat shall not be considered to be running at large if it is on a leash and under control of a person physically able to control it.
