

# Community Outreach Program

Resources for people with disabilities and their caregivers.

## What do YOU need to live independently?

A Hearing Aid?

A Speaking Device?

An Accessible Van?

**The Assistive Technology Alternative Financing Program is the place to turn when you need to purchase assistive technology.**

### THE ASSISTIVE TECHNOLOGY ALTERNATIVE FINANCING PROGRAM

Assistive Technology can mean the difference between struggling to perform everyday tasks and living a full and independent life!

#### **BUT, how will you pay for.....**

- Modifications to your home to make it accessible?
- An adapted vehicle to transport your child?
- Hearing aids for your parent?

#### **Easter Seals can help!**

The Easter Seals Assistive Technology Alternative Financing Program\* can help you affordably acquire the equipment you need to live safely and independently by helping you secure a lower interest loan through our lending partners – DEXSTA Federal Credit Union, Del-One Federal Credit Union, and PNC bank.

#### **Our case manager will:**

- Help you find alternative programs for which you may be eligible.
- Assist you in securing a loan with one of our lending partners.
- Provide follow up and support throughout the life of the loan.

The program is open to Delaware residents of all ages with disabilities of all types; seniors with age-related functional limitations; and family members caring for someone with a disability.

\*The Assistive Technology Alternative Financing Program is administered in conjunction with the Delaware Division of Vocational Rehabilitation.
