

## Konica Minolta bizhub C450i

Outstanding 45-ppm A3 Color MFP

The Konica Minolta bizhub C450i has claimed the BLI Winter 2021 Pick Award for Outstanding 45-ppm A3 Color MFP from Keypoint Intelligence thanks to its...

- Flawless reliability and simple maintenance that result in maximum uptime
- Elite print functions and walk-up usage that streamline and simplify workflows
- High-usage apps and onboard tools to save time and reduce costs
- Web user interface with built-in search for efficient device management

"The Konica Minolta bizhub C450i is a terrific choice for mid-size workgroups and departments," said George Mikolay, Associate Director of A3 Hardware/Production. "The device's perfect reliability keeps it up and running, as shown by our rigorous testing in which not one misfeed was experienced over 200,000 impressions. This is aided by a built-in automatic intelligent media sensor that detects media weight and automatically makes the correct media setting. Other features including simple maintenance procedures for replacing toner and clearing misfeeds, an above average maximum paper capacity, and sophisticated administration tools and services also contribute to the unit's stellar uptime, helping workgroups stay productive.

"The device's ease of use is also remarkable," Mikolay continued. "The fully tiltable control panel features slide-and-swipe navigation as well as a Card-style user interface that allows for quick access to desired settings. Easy-to-customize walk-up menus and print driver tabs further add convenience, as does the ability to download high-usage apps from the Konica Minolta MarketPlace at the control panel. The Personalize Follow-You Persona Service lets users personalize their MFP panel with the apps, tools, and tiles they use most often and then access them from any MFP, anywhere. To top it off, rich scan-preview capabilities and fast scan speeds, flexible mobile support including standard NFC, and support for the bizhub Remote Panel app for operating the control panel from a mobile device only heighten the Konica Minolta bizhub C450i's functionality, ease of use, and productivity."

## About Keypoint Intelligence

---

For 60 years, clients in the digital imaging industry have relied on Keypoint Intelligence for independent hands-on testing, lab data, and extensive market research to drive their product and sales success. Keypoint Intelligence has been recognized as the industry's most trusted resource for unbiased information, analysis, and awards due to decades of analyst experience. Customers have harnessed this mission-critical knowledge for strategic decision-making, daily sales enablement, and operational excellence to improve business goals and increase bottom lines. With a central focus on clients, Keypoint Intelligence continues to evolve as the industry changes by expanding offerings and updating methods, while intimately understanding and serving manufacturers', channels', and their customers' transformation in the digital printing and imaging sector.

## About BLI Office Hardware Pick Awards

---

Buyers Lab Picks stand alone in the industry and are hard-earned awards as they are based on rigorous testing, including an extensive durability assessment and evaluation of key attributes such as usability, image quality, and value. Each product that passes its lab test earns the Highly Recommended or Recommended Seal and a Certificate of Reliability, with the best performers qualifying as Pick contenders.
