DESCRIPTION: EXTREMELY RARE Ocala X-14A. 2" wide cinnamon brown glass limbs. Bubinga riser; benge and cherry tip overlays. Comfortable semi-pistol grip. Great looking and performing Shakespeare recurve. No delamination; no cracks; limbs are straight. Overlays and tips are in great condition. Two small filled sight holes on the back (see pic on last page). No chips, dings or cracks. No stress lines or crazing. A few scratches and scuffs here and there.

Larry Vienneau Jr., who runs the web blog [shakespearearchery.blogspot.com](http://shakespearearchery.blogspot.com) had this to say about the Ocala X-14A: "The term "rare" often gets over used today but I think RARE aptly describes the X-14-A. The Ocala Special X-14A was designed as a hunting bow. It is a modified Ocala with longer limbs and offered a factory mounted bow sight. This bow was manufactured for just two years and it is a very hard bow to find today. Since I have been collecting vintage bows I had not seen a single X-14A offered for sale, trade or auction."
