

# Community Medical Center The Joint Institute

## A New Approach to Joint Replacement Surgery

The Joint Institute at Community Medical Center offers patients high quality joint replacement surgical options and allows them to remain in the continuous care of their trusted primary care physician while staying close to home.

## A Multidisciplinary Approach

Our multidisciplinary approach includes highly skilled and experienced orthopedic surgeons, anesthesiologists, rehabilitation specialists, nurses specializing in orthopedic care, pharmacists and volunteers. In addition, our Home Health staff provides a comprehensive Joint Replacement Therapy at Home program so patients may leave the hospital and continue their rehabilitation in the comfort of their own surroundings.

## Ranked #1 in New Jersey for Overall Orthopedic Excellence

Community Medical Center has been the recipient of HealthGrades Orthopedic Excellence Award since 2006, placing Community in the Top 5% of hospitals nationwide for orthopedic services. In addition, this designation ranks Community Medical Center as the #1 hospital in New Jersey for overall orthopedic care. We have also earned HealthGrades Five Star rating for Joint Replacement, Total Knee Replacement, Total Hip Replacement, Hip Fracture Repair, Back and Neck Surgery and Spine Surgery.

## Preparing for a Positive Outcome

The Joint Institute emphasizes a group approach to education and rehabilitation which provides a very supportive environment to help patients increase their mobility after surgery and improves clinical outcomes. Preparing prior to surgery makes the patient stronger and better able to fully participate in the recovery process.
