

Providers who see patients needing medical care unavailable at our clinic have several options.

- 1) Emergency patients should be sent to the hospital in Tocoa or Trujillo.
- 2) Medical tests can be obtained at DiaMed in Tocoa. Call 2444-0765. David Kelly has CHHF stationery to be used to send a message written in Spanish to DiaMed so that they know the patient is a CHHF referral and is to be given the following discount:
 - Simple x-ray - 200 lempiras to 400 lempiras (depending on area)
 - Mammogram - 600 lempiras
 - EKG - 200 lempiras
- 3) Currently there are no surgery referral opportunities.
- 4) Referral for the following specialized care can be sent to Peggy Hook: orthopedic, pediatric cardiology, ophthalmology (not optometry), or plastic surgery. For these please complete the following information including a description of the medical issue and photos of the patient/problem. Upon return to the States, send this information and digital photos to Peggy Hook, Medical Referral Coordinator at hookkp@gmail.com

CHHF MEDICAL REFERRAL
(Please print so that your handwriting can be read.)
