LED Puck Lamp

A compact, high-output LED light source, the LED Puck Lamp is ideal for enclosed fixture applications. This unique hockey puck size lighting product operates on just 9 watts while providing output up to 820 lumens. The LED Puck Lamp is dimmable with standard incandescent-type dimmers, and rated for use in damp locations.

Features

- UL listed for damp locations and totally enclosed luminaires
- Compact design allows fit into shallow fixture housings
- Fits where Squat CFLs are used
- 140 degree beam angle
- 820 lumens output equivalent to a 60WA lamp
- Available with either medium base (E26) or bi-pin base (GU24)

Construction

- Die cast aluminum heatsink
