

## Energetic System Performance

The goal is to eventually have each system at 100%. To learn more about each system's energetic performance, click on the name of the system below the health dial.

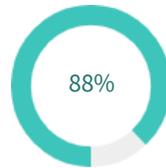

100%: MINOR STRESS   80%: STRESS   60%: CHRONIC STRESS   40%: WEAKNESS   20%: CHRONIC WEAKNESS

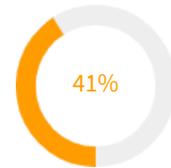

Integumentary

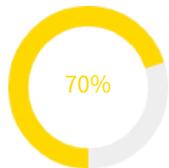

Nervous

Respiratory

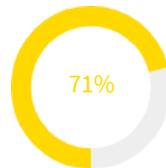

Digestive

Pancreas

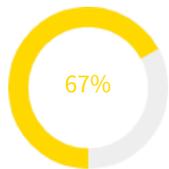

Liver/Gallbladder

Metabolism

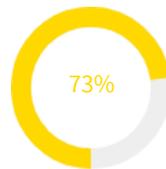

Urogenital

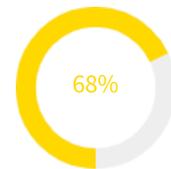

Endocrine

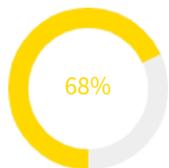

Locomotor

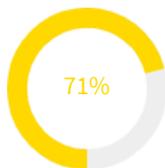

Blood

Cardio

Lymph

Immune

### Notes

Most significantly stressed: Central & Peripheral Nervous System, Large Intestine, Governing Vessel

We scan 58 points to create the energetic system performance. There are a number of systems in which energetic stress was found as you can see from the chart above. In addition to the three most significantly stressed points listed above, the following points of the body are also driving some of these systems down: **Pituitary & Pineal Glands, Thyroid & Thymus, Sinuses, Allergy Points, Joints, Pancreas,**

Gallbladder, Hypothalamus, Circulation, Adrenal Glands, Throat & Tonsils, Skin, Stomach, Small Intestine, Liver and Cellular Metabolism.

---

## Energetic Sensitivities

Listed below are the items that came up bioenergetically sensitive. With time as the body rebalances, some of these energetic sensitivities may change.

[View all sensitivities tested.](#)

### Additives

None

### Beverages

None

### Dairy

- Cow Milk
- Cow Whey
- Lactose

### Dairy Alternative

- Soy Milk

### Environmental

- Cleaning Supplies
- Mold
- Weeds
- Trees
- Pollen
- Dust
- Grasses
- Fossil Fuels

### Fish

None

### Fruit

None

### Grains

- White Flour
- Millet
- Wheat flour
- Buckwheat
- Brown Rice
- Teff
- Spelt
- Rye
- Gluten
- Barley

### Ingredients

None

### Legumes

- Tofu
- Soy Bean

### Meat

None

### Nuts

- Pecan

### Shellfish

None

### Spices

None

### Sugars

- White Sugar
- High Fructose Corn Syrup
- Fructose

### Vegetables

None

---

## Energetic Nutritional Imbalances

You were scanned for enzyme, fatty acid, vitamin, mineral, and amino acid imbalances. Below are a list of those nutrients that are bioenergetically low.

## Amino Acids

- Glutamine  
food sources include many plant and animal substances. Excellent sources would be raw spinach and parsley
- Leucine  
food sources include brown rice, beans, meats, nuts
- Ornithine  
food sources include meat, fish, and eggs

## Enzymes

- Papain  
food sources include papaya
- Pancreatin  
group of enzymes normally produced in the pancreas
- Bromelain  
food sources include pineapple

## Fatty Acids

- DHA  
sources include salmon, sardines, mackerel, herring, seaweed
- CLA  
sources of Conjugated Linoleic Acid (CLA) is grass fed beef and dairy products
- GLA  
sources include flax, olive, and hemp oil

## Minerals

- Potassium  
sources include fish, fruit, legumes, meat, poultry, vegetables, whole grains, apricots, bananas, blackstrap

molasses, brewer's yeast brown rice, dates, dulse, figs, dried fruit, nuts, potatoes, winter squash, yams, sage

- Manganese  
sources include cashews, caviar, cheddar cheese, egg yolk, garbanzo beans, lentils, blackstrap molasses, mussels, pistachios, pumpkin seeds, seaweed, walnuts, whole-grains
- Magnesium  
sources include apples, apricots, bananas, blackstrap molasses, brewer's yeast, brown rice, cantaloupe, dulse, figs, grapefruit, green leafy vegetables, kelp, lemons, lima beans, millet, nuts, peaches, black-eye peas, salmon, sesame seeds, watercress, whole grains, cayenne, chamomile, paprika, peppermint, sage

## Vitamins

- Riboflavin (Vitamin B2)  
sources include liver, oysters, meat, dark leafy vegetables, eggs, mushrooms, asparagus, broccoli, Brussels sprouts, fish
- PABA  
sources include kidney, liver, molasses, mushrooms, spinach, whole grains
- Choline  
sources include egg yolks, legumes, meat, whole-grains

---

## Energetic Toxins

You were scanned against resonating heavy metals, bacteria, viruses, molds, parasites, and chemicals. Below are those that were found, energetic in nature, which simply means there was a match to the bioenergetic pattern of that

category.

## Bacteria

- A resonating bacteria often transmitted by ticks, fleas, or mosquitos.
- A resonating bacteria commonly found in soil, water, organic matter, plants, and food products.

## Chemicals

- A resonating chemical that may be found in everyday items such as food & supplements, materials for constructing, fabrics, detergents, plastics, cosmetics, and fragrances.

## Metals

- A resonating Heavy Metal used in various implants, dental work, or water impurities.
- A resonating Heavy Metal used in various structural materials.

## Mold

- A resonating mycotoxin that is produced by some species of molds, typically found on crops. It is typically transmitted through inhalation.
- A resonating Mold/Fungi that can be found on the hair, skin, or nails. It is often transmitted through direct or indirect contact of an infected person.
- A resonating Mold/Fungi that grows in plant debris, soil, and decaying wood.

## Parasites

- A resonating parasite often transmitted through the consumption of a contaminated food or beverage.

## Virus

- A resonating virus often transmitted by ticks, mosquitoes, and other biting insects.
  - A resonating virus often transmitted through close personal contact such as shaking hands, coughing, sneezing, or touching objects that may have been touched previously by an infected individual.
- 

## Energetic Hormonal Imbalances

You were scanned to find resonating hormonal imbalances those hormones detected are listed below.

### Hormones

- High Cortisol  
A glucocortical hormone of the adrenal cortex often referred to as the stress hormone.
  - High Cholesterol  
A sterol widely distributed and important in metabolism, cell membrane integrity, and serving as a precursor of various steroid hormones.
  - Low Corticosterone  
A hormone of the adrenal cortex that influences carbohydrate, potassium, and sodium metabolism. It is essential for normal absorption of glucose, the formation of glycogen in the liver and tissues, and the normal use of carbohydrates by the tissues.
  - Low DHEA  
A natural steroid and precursor hormone produced by the adrenal glands.
- 

## Notes

There is some work to do with fortifying some systems. The regimen below was synergistically tested for balance.

- **Please make note of the specific dosages listed within the remedy descriptions below. It is ideal to start at a low dose and work up to the full dose listed.**

It would be ideal to have your hair and saliva samples scanned again to check your progress in roughly 4 to 6 weeks.

service is strictly for educational purposes and is not intended to diagnose, treat, cure, or prevent any disease. These services are designed for educational purposes only and are not intended to serve as medical advice.

---

## Balancing Remedies

Up until this point, we've been analyzing the current state of energetic stressors. This section will identify remedies to bring these stresses back into balance. When scanning for balancing remedies, your samples were scanned against thousands of potential remedies including herbs, homeopathics, and nutritional supplements. We take scanning a step further by making sure the full combination of remedies synergistically test well against your hair and saliva.

### Herbal

- Hydrangea Complex

This herbal blend has been formulated for the temporary relief of issues related to the biliary tract, liver, and gallbladder. Ingredients: Proprietary blend (0.5 ml) Hydrangea (Root) Gravel Root (Root) Artichoke (Leaf) Pleurisy Root (Root) Barberry (Root) Blessed Thistle (Aerial parts) Clubmoss (Whole Plant) Fringe Tree (Root Bark)

\$19.90

- Ginkgo Intrinsic

- **Standard Dose: 25 drops in warm water two times per day**
- **Under 120 lb Dose: Divide weight by 6 and that is how many drops two times per day in warm water**

Traditionally Supports: Peripheral / Cerebral, Circulation, Increases Oxygen Uptake, Inhibits Platelet Aggregation, Closed Head Injuries, Dizziness, Equilibrium Problems, Tinnitus, Mood Issues, Memory Issues, Pituitary Support  
Ingredients: *Ashwagandha root (Withania somnifera) 25 mg, Gota Kola (Centella asiatica) 50 mg, Ginkgo (Ginkgo biloba) 50 mg, Passionflower (Passiflora incarnata) 10 mg, Rosemary (Rosmarinus officinalis) 15 mg, Skullcap (Scutellaria laterifolia) 25 mg, St. John's Wort (Hypericum perforatum) 25 mg, Distilled water, Kosher glycerine from palm/or coconut oil 10%, Organic cane alcohol 20% (2 oz)*

\$32.00

### Homeopathic

- Pneumostat

This homeopathic remedy has been used with issues associated with exposure to pollutants and toxins such as cough with expectoration and pressure upon the chest. Ingredients: Echinacea 3X, Hypericum Perforatum 3X, Hydrastis Canadensis 6X, Symphytum Officinale 6X, Arsenicum Album 12X, Causticum 12X, Kali Carbonicum 12X, Natrum Sulphuricum 12X, Phosphorus 12X, Pulsatilla 12X, Silicea 12X. Demineralized water, 20% ethanol.

\$15.00

### Supplements

- Green Tea Catechins

- **Standard Dose: Two capsules in the AM**

- **Under 120 lb Dose: Ask Health Practitioner**

Traditionally Supports: Antioxidant, Energy, Fat metabolism, Reduced appetite, Blood glucose management, Neuroprotection, Cardiovascular support, Testosterone metabolism, Prostate, Respiratory, Inflammation reduction, Detoxification support, Antiviral/bacterial, Digestive Issues, Skin. *Ingredients: 100% caffeine free VERY HIGH QUALITY Green Tea Leaf Extract (Camellia sinensis) standardized to contain 98% polyphenols, 75% catechins, 45% EGCG (270 mg) 600 mg (60 caps)*

\$31.00

- Glutamine Complex PLG U Powder

- **Standard Dose: One teaspoon in water one time per day on an empty stomach**
- **Under 120 lb Dose: Ask Health Practitioner**

Traditionally Supports: Gastrointestinal problems, Passive leaky gut & food sensitivities, Candida, Wound healing, Immune system weakness, Viral infections, Chronic fatigue, Reduces sugar and alcohol cravings, Speeds recovery of sore muscles, Preservation of muscle tissue, Respiratory, Balances blood sugar, Promotes healthy acid-alkaline balance, Prevents immune weakness, Fights colds and flu, Supports muscle glycogen stores, Growth hormone production, Prevents muscle loss/wasting, Development of enterocytes, a type of cell that is plentiful in the epithelial lining of the gastrointestinal tract, Cross the blood-brain barrier where the brain uses it for fuel. *Ingredients: L-Glutamine 5000 mg, Deglycyrrhizinated Licorice (DGL) 10:1 600 mg, Aloe Vera Extract (200:1) 100 mg, Marshmallow powder (4:1) 100 mg, Arabinogalactan 500 mg (240 grams)*

\$58.00

- L Arginine SR

- **Standard Dose: One tablet two times per day on an empty stomach**
- **Under 120 lb Dose: Ask Health Practitioner**

Traditionally Supports: Regulates nitric oxide, Vasodilation (regulates blood flow), Male/female sexual performance, Sperm motility, Migraines/vascular headaches, Neural communication, Blood pressure, Angina, Cholesterol, Immune function, Intermittent claudication, Interstitial cystitis, Helps the kidneys to remove waste products from the body (BTA), Blood sugar, Metabolic alkalosis, Enhances protein production, Metabolizes ammonia waste in urea cycle. *Ingredients: L-Arginine SR (as L-Arginine HCl) 500 mg. Sustained release is vitally necessary to maintain steady, stable, nitric oxide flow levels. (90 tabs)*

\$31.90
