To whom it may concern:

This is a letter of the highest recommendation for Corey Macfadyen as a musician, composer, producer, engineer, live event technician and all around multi-hyphen talent.

I have personally known Corey since the early eighties where we had the pleasure of performing and touring throughout the country and as we have gone into our own respective careers, I always look for the opportunity to work together again. I know it will be a deeply creative, collaborative and wholly fulfilling endeavor. He even saved us on one of our films a few years ago, when we needed to replace unlicensed music with his original compositions, and mix it into the soundtrack under seemingly unattainable deadlines. I am always grateful for my relationship with him both as a friend and a peer. If I were to use sporting terms, Corey could only be described as a franchise player. He does so many things so well and anyone I know who has worked with him has nothing but praise and admiration for his depth of talent and breadth of knowledge about the sound of music. His contributions so far have been vast and yet he's only just begun. I could go on forever, truly.

Kind Regards,

A handwritten signature in black ink, appearing to read "Jo Marr".
