

HAZ-MATTERS
EMERGENCY MANAGEMENT INC.

CONFINED SPACE ENTRY

Why Choose HAZ-MATTERS?

HAZ-MATTERS
EMERGENCY MANAGEMENT INC.

The Confined Space Entry program is designed for employees and employers of all capacities who need to identify and control the hazards associated with confined space safety at their worksites.

HAZ-MATTERS provides a comprehensive program that dovetails with three highly recognized programs: (1) the British Columbia Workers Compensation Board WorkSafeBC program, (2) the Ontario Health and Safety Act, O. Reg. 632/05, and (3) Occupational Safety and Health Act, OSHA 29CFR1910.146. By combining these reference programs with our real-life training and experience, we ensure an effective and prescriptive mechanism to develop and maintain a compliant program for your worksite

As with all of our courses, the purpose of this course is to ensure *real-life* understanding and knowledge to employees while establishing an operations level of competency to all employees engaged in confined space entry situations on work sites. The objectives of the course are to acquire:

- ◇ An overview and general conceptual understanding of the Regulations as a whole
- ◇ A thorough working understanding of the responsibilities associated with each person involved in any CSE
- ◇ An understanding of how to identify, test, and understand a confined space,

HAZ-MATTERS prides ourselves on our reputation for providing clear understanding to complex and technical information for all levels of experience. It is the cornerstone of our service, and continues to always be our primary goal.

COURSE OUTLINE

HAZ-MATTERS
EMERGENCY MANAGEMENT INC.

- ◆ **Regulatory Overview**
