## EXECUTIVE SUMMARY

Vapnadomr Solutions, Inc., provides Information Technology Consulting Services to the military and federal agencies. Our services include Enterprise Systems Management, Storage Area Networks, software installation, and process re-engineering to improve efficiency, project management, and support desk services to reduce administrative costs.

Specifically, we specialize in consulting of a service level management (SLM) system that delivers real-time, centralized monitoring of complex networks and IT domains. The information presented can be handled according to the needs of the organization. For example, it can be passed to helpdesk systems, logged in databases, replicated on remote systems, and used to trigger automatic responses to certain events.
