

Do You or a loved one have knowledge about Thrombosis?

Are you going to visit your Doctor or Hospital ?

$$DVT+PE = VTE$$

FACTS

Thrombosis is a formation of a blood clot inside a blood vessel ,obstructing the flow of blood through the circulatory system.

A blood clot in the vein (usually in the leg or pelvis) is known as a deep vein thrombosis (DVT) and a clot that breaks off and travels to the lungs is known as a pulmonary embolism (PE)

Together, DVT and PE make up venous thromboembolism (VTE)

1 IN **4**

People who have PE Die without warning

3 IN **10**

who have blood clot will have another episode in 10yrs

#1

Cause of preventable death in hospitals is VTE

900,000

people get affected with VTE each year in America
