New business/discussions of membership

A member mentioned that some of the vinyl sided buildings need to be power washed. The Board explained that it is something the Board is looking at.

A member discussed his dissatisfaction with the cost of the vinyl on the sunrooms. The Board explained that it was bid out and the cost was reduced after negotiations, but that the material being used and the specifications for the installation impact the price. Other communities in the area are completing the same program and have similar cost for the improvement.

There was a question regarding which buildings would be completed first with vinyl. The Board answered that it would be decided this spring.

There was mention of what an excellent job the Clubhouse Committee is doing with the clubhouse, and there was a round of applause for those members involved on the committee.

DAY TRIP SUNDAY, APRIL 15, 2018

MICHIGAN FIREMEN'S MUSEUM

Normally this group would meet after coffee hour for these trips. But due to the museums open schedule this trip will be on **Sunday**. This is open to anyone. You do not have to drive or you can drive with others in your car. Our first place to visit in April will be: Michigan Firemen's Museum, lunch at Bombers, and the Hudson car museum. Meeting at 11:00am at the clubhouse. It is all in the same location and inside. Contact Judy Keeling, 734 972-0066 if you have questions or are interested in joining this trip.

Michigan Firemen's Museum: Original 1898 firehouse plus a new 12,000 sq. ft. exhibit area with lots of antique and classic fire trucks, as well as numerous collections of historical fire equipment and memorabilia on display. Recently Arrived, see it in the Old Firehouse: Ladder Wagon and a 1878 Ahrens, Re-built in 1910 by American-LaFrance.

Currently on display: One of the largest collection of fire vehicle sirens and lights anywhere.

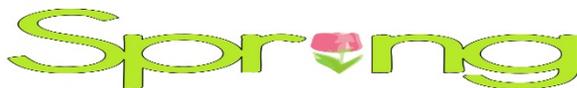

The Michigan Firehouse Museum and Education Center's mission is to enhance the appreciation of firefighting history through engaging and informative exhibits, as well as teaching and promoting fire safety and prevention.

Encompassing over 26,000 square feet, the Museum is an educational treasure trove that includes an original 1898 firehouse and modern, multilevel exhibit display area.

Walking through the restored firehouse, visitors can view a fire engine steamer replete with horses, ready to go on their way to a fire. The large, modern addition offers 25 changing exhibits of antique fire trucks and early fire rigs, multiple displays of historic artifacts including tools, equipment, memorabilia and the largest collection of fire truck bells in the country.

Other possible future trips Heavenly Herb Scent, Mill Race in Northville, Holly Hotel Tea room, boat ride at Kensington park, the town of Williamston. If you have any ideas come to coffee hour on Mondays at 8:30 am.

April...Finally

By Bill Semion

We made it. While some of us (including me) escaped the snowstorms including the ones which raked the area in March by heading south, April is a joyous month, heralding the actual arrival of spring, regardless of what the calendar says.

So, to bring in the new season, time for a bit of green. Mixed in with this and that that will whet your appetite to get out. It's time. Open your door. Open your hearts. Open your minds. And, like you used to do, let go of being cranky, and let the sun shine in.

Head south a few miles and take in the greenery of the University of Michigan's Matthaei Botanical Gardens and Nichols Arboretum near Dixboro. Open daily (hours vary, check the website), it give you a glimpse of what's to come with acres of greenery, especially in its indoor conservatory. A trail through the gardens is not only great exercise, but once again gets you outdoors, which is where you should be this time of year.

Now, do something daring. Get in your car and head to that den of inequity, downtown Detroit. More specifically, to Belle Isle. You'll find that it's neither a den, nor the place you may have thought it is. It's now under the stewardship of the Michigan Department of Natural Resources, and is receiving its share of the comeback of Detroit kudos. The Belle Isle Anna Scripps Whitcomb Conservatory is always a favorite of mine. Step into this heat-bathed dome and see everything from banana trees to orchids, the way it has been since 1902. It's the oldest of its kind in the country.

Hungry? Join the hipsters who populate the Dime Store, which is open only through 3 p.m. weekends or 4 p.m. weekdays, and prepare to be bathed in culinary "brunch excellence." Everything is locally sourced. Try the several hash dishes, the several omelets combos, or the "bennys," as the multiple styles of eggs Benedict are called. A great place to break out of your own shell.

Don't want to go east? Head west instead to Lansing, and its MSU gardens both indoors and out, or really be adventurous and head to Grand Rapids, and stay awhile at a city B&B while touring Meijer Gardens and Arboretum.

Or, go on a walkabout on the nature trails of nearby Kensington Metropark just down the road. In short, get out and enjoy life. It's too

Notice to All Dog Owners

Having or owning a pet (especially a dog) in Phase V of Colonial Acres is a privilege, not a right. There are Rules and Regulations regarding having pets. This notice is to remind members of their "duties" regarding having a pet.

This winter was a very snowy winter but, that does not excuse member pet owners from picking up dog droppings. There was a lack of responsibility by a certain individual (s) of not picking up dog droppings this winter. Evidence of this lack of responsibility showed its ugly face on Raleigh Court where a home owner in that area was finally forced to pick up close to 30 dog baggies worth of droppings left behind by someone else. This is unacceptable!

For those who may not have read their Rules and Regulations you need to know that the Board of Directors can and will fine those who continually do not pick up after their pet. Please read your Rules and Regulations regarding fines on page 7 and Pets on page 21.

We will be watching.

Neighborhood Watch

On Sunday March 4th gunfire that was thought to be in our neighborhood was investigated by our police department. Response was quick. Though it did take a follow up call to the police station the next day to receive any details on the incident. It was found that the gunfire was from across the railroad tracks, by our Clubhouse pond, at the apartment complex located there. Information shared from the police station was that firearms were confiscated . Arrests were made and fines were served for the discharging of firearms within the city limits. My question is "Is there a better way to be informed of police matters that would affect our community"?

Nesting Time is Here Again

Denise Semion

For the third year, Colonial Acres Phase V will be participating in the Canada geese nest destruction program coordinated by the U. S. Department of Agriculture (USDA) and Michigan Department of Natural Resources (MDNR).

The nest destruction program gives Phase V a permit to destroy Canada goose eggs, and encourage these birds to leave our ponds. According to the MDNR, this is the most effective method to control geese.

Jim Reuschlein, of Clearview Management, conducts the nest destruction activities according to the requirements of the permit. Please note that eggs can only be taken on designated days. Jim and his crew removed 20 eggs in 2016 and 22 in 2017. Those 44 eggs could have added even more birds to our more-than-plentiful Canada goose population here.

Jim has indicated to me that the geese seem to nest in the same places each year, and he knows where to look. He will be out on the days allowed through the program. Last year, one goose laid eggs after the time when he could remove them.

Please do not approach the geese, or the nests. Even if you don't agree with this program, most of your neighbors probably do. Please remember this project, supported by the Board, benefits the Colonial Acres Phase V community.

Please feel free to contact me at 734-658-8755 or dsemion@gmail.com to report any nests or other geese activity.

Enjoy this spring recipe! Rhubarb Dream Bars

Crust:

1 cup flour, 1/2 cup sugar, 1/2 cup butter, room temperature

Filling:

2 large eggs

1 cup sugar

1/4 cup flour

1/4 tsp salt

2 cups diced rhubarb

Preheat oven to 350F. Line the bottom of an 8x8" pan with parchment bringing it up the sides so that it will be easy to remove the squares after.

Whirl the crust ingredients in a food processor and then press into the prepared pan. Bake for 15 min., crust will still remain very pale in color. While crust is baking mix together eggs, sugar, flour and salt and whisk well. Stir in rhubarb. Pour onto the hot crust and continue to bake for 40-45min.

Let the bars cool and remove with the parchment paper. Cut into squares.

If Your Loved One Needs Nursing Home, Assisted Living or At-Home Care, You Need To Talk To Us

The number one reason people don't want to call an elder law attorney when their loved one is facing the need for nursing home, assisted living or at home care? They are afraid of the cost! I mean, lawyers are expensive, right?

At the Family & Aging Law Center, we understand that fear. It is hard enough when you are faced with a \$3,000 - \$14,000 (or more) monthly bill for a loved one's care. Adding on attorney's fees just doesn't seem like a good idea.

However, in so many cases, that fear is misguided. The FACT of the matter is, our law firm can very often save you and your family MUCH MORE than we cost! As hard as that may be to believe, it is true. Here, we are talking not just money, but also savings due to costly mistakes that are made when you take advice from non-lawyers, or people that don't know all the ins and outs of this area of the law.

The 8 Things You Need to Know to Protect Your Family Savings:

1. Do you know that specialized trusts can protect your house from loss to a nursing home?

2. Do you know that we can still protect family money, even if a loved one is already in a nursing home, or needs care at home, assisted living or nursing home care?

3. Did you know that parents may be heavily penalized for gifts given to family members if they are made within 5 years of a nursing home stay?

4. Do you know that we have specialized trusts that, when used properly, will permit you to make gifts to your family and not worry about that 5-year rule?

5. Do you know that our trusts avoid Probate? By setting up the right type of trust, we can save your family the expense and aggravation of going through Probate. With our trusts, your family will have access to money and property immediately instead of having to wait months... or possibly years (and it will cost you a fraction of what estate expenses normally are!).

6. Do you know that our custom drafted Powers of Attorney will let you save your home and money in an emergency? Don't make the mistake of thinking all Powers of Attorney are created equally. Our documents have about 20 pages of specialized provisions to protect assets. That old 2-page Power of Attorney form you may have is often useless for protecting property.

7. Do you know that you can protect family savings by paying your children or other loved ones to take care of you with one of our custom-drafted Personal Care Agreements (but that just paying without a proper Agreement can cause major penalties, and even a loss of your loved ones' lifetime savings)?

8. Do you know that there are major changes being proposed in the laws that could affect your Veterans benefits, and that acting now may be the best option?
