

Warm AIR Controls - Gas & Oil

June 25, 2025
The Mill at French River
9 Frederick St., Webster, MA
\$355.00 per Student
8:30am - 4:30pm

George Lanthier & Paul Muise, Instructors

Training on the current heating controls being installed & serviced today.

A seminar that focuses on Warm AIR Furnace controls operating today's HVAC systems. Covers both in-the-field and new controls entering the market. Features detailed information on troubleshooting Blower Control Boards (Timers) like Honeywell's ST9100 and S9200 Series and others like ECR and NRGMAX. All required training materials are provided including our **NEW** Warm AIR Systems Handbook. The program is not fuel specific and is ideal for anyone involved in residential warm air heating system service and installation. Includes hands-on and student must bring a **MULTIMETER** to participate.

Seats are limited and sold only on a first-paid, first-seated basis and include lunch.
