

# SAN FRANCISCO PLEIADES STAR MAP 2

The purpose of this illustration is to suggest that the Financial District of San Francisco, California incorporates the Orion 3 star belt motif. The skyscraper that has a pyramid atop is the clue that corresponds to the Great Pyramid of Giza and the star Alnitak of Orion's Belt. With this pattern the Orion the entire Orion outline can be superimposed when the belt stars are reversed. With this outline pattern, the following stars correlate to the certain prominent buildings. The arrow of Orion terminates at the Grace Cathedral square that exhibits new age Luciferian architecture. The Orion star Bellatrix corresponds to the offices of Senator Dianne Feinstein. The Orion star Betelgeuse corresponds to the Yerba Buena Garden. The arms of Orion correspond to the Hall of Justice and so on.
