Sewer Line Repair & Replacement **Trusted Plumbing Experts Available 24/7**

Cracked sewer pipes can be more than just a costly repair-They can result in extensive and pricey property damage and lead to serious health risks. V&L Plumbing is your local source for quality plumbing services at any time. As sewer pipe experts, our plumbers remain available 24/7 to take your call.

Common Causes of Sewer Line Damage:

Cast iron pipes may suffer from corrosion, rust, and ultimately breakdown.

Clay pipes often become brittle, cracking in multiple areas if improperly installed.

PVC/ABS plastic pipe may suffer cracks if water temperatures exceed rated limits for materials.

In general, any type of pipe-regardless of the materials it's made of-can break due to extreme inner (water) and outer (ground) pressure.

What are some common signs of a broken sewer pipe?

Strange gurgling noises coming from your toilet (s).

Lack of water in your toilet (s).

Slow draining bathtub/failure to drain

Noticeable sewage backup in your toilet

Sewer odor in your basement, yard, or other areas on your property
