

THE ISLAMIC CRUSADES

The purpose of this illustration is to highlight the events and concerns of the current Civil War in Syria. It will be from a different perspective that is currently being portrayed by the main-stream Western media that is intentionally misleading the US people and especially the Christian community in many aspects of the Muslim uprisings. It appears that the Satanic Globalists that are behind the political, economic, social world scenes, yet again are 1) bringing down this nation before the world. 2) Their political cadre unleashed by the Muslim uprisings have been nothing more than an Islamic-Jihadist struggle with an underlying aim to eradicate Christianity from the entire Middle East. 3) The Western and al-Jazeera media outlets have filtered out the travesties perpetrated by the Jihadist against the minority ethnic Christian communities—like in the other Muslim nations of Iraq, Afghanistan, Tunisia, Libya, Egypt & now Syria.

There have been eye-witness accounts from fleeing Christian refugees that the 'freedom fighter' of the 'Free Syrian Army' are announcing publicly that Christians are to vacate rebel controlled territory. The ultimatum is Mohammed's only choice for the infidels, 1) submit to Islam or 2) be beheaded.

If the Arab uprisings have been the cause to sweep in 'democracy' to replace the old corrupt 'Guard' in the Middle East, it has spelled doom and genocide to come, for non-Muslim ethnic and religious groups, mainly the Christians. As the Satanic Globalist used the 'Crusades' in the name of Christ to sweep over the Middle East and Jerusalem then in the 'Dark Ages', they are now once again using this same End-Game plan—of an 'Islamic Crusade' to consolidate control of the region and to destroy God's People, in the process. This is being done now by mustering up the hateful religious zeal of the Islamic religion against Jews and Christians to massacre and slaughter them on a national scale, once the Rapture takes place, before this coming 'Dark Age' is initiated during the Tribulation as described in the Book of Revelation.

ENTITIES SUPPORTING 'FREE SYRIAN ARMY'
 Arabia and Turkey are funneling arms and money to the Rebels that consist of Muslim extremist Anti-Christian Jihadists. They see this as a Holy War against Infidels, whom Assad, as a Alawi is considered heretical.

- al-Qaida
- Muslim Brotherhood
- Hamas
- Arab League

ENTITIES SUPPORTING 'FREE SYRIAN ARMY'
 Globalist entities from outside of Syria are also funneling weapons to the Free Syrian Army (FSA). Various intelligence secret agencies have funneled Jihadist Muslim mercenaries from Libya, Jordan, Iraq and Egypt in an attempt to topple the Syrian government. What has been done to Libya is what is going to happen to Syria at some point in time.

- CIA
- MI-5/6
- Mossad
- NATO/OTAN
- United Nations

ENTITIES SUPPORTING ASSAD GOVERNMENT
 Despite a counter balance to the Western-led coalition of support of Rebels against Assad, Russia, China and Iran remain at bay. Syria is Russia's number 1 buyer of weapons systems. Syria also has a military pact with Hezbollah and Iran. Iran and Russia both have Naval Military bases on the Mediterranean coast of Syria.

- Russian Federation
- People's Republic of China
- (Shi'ite) Republic of Iran

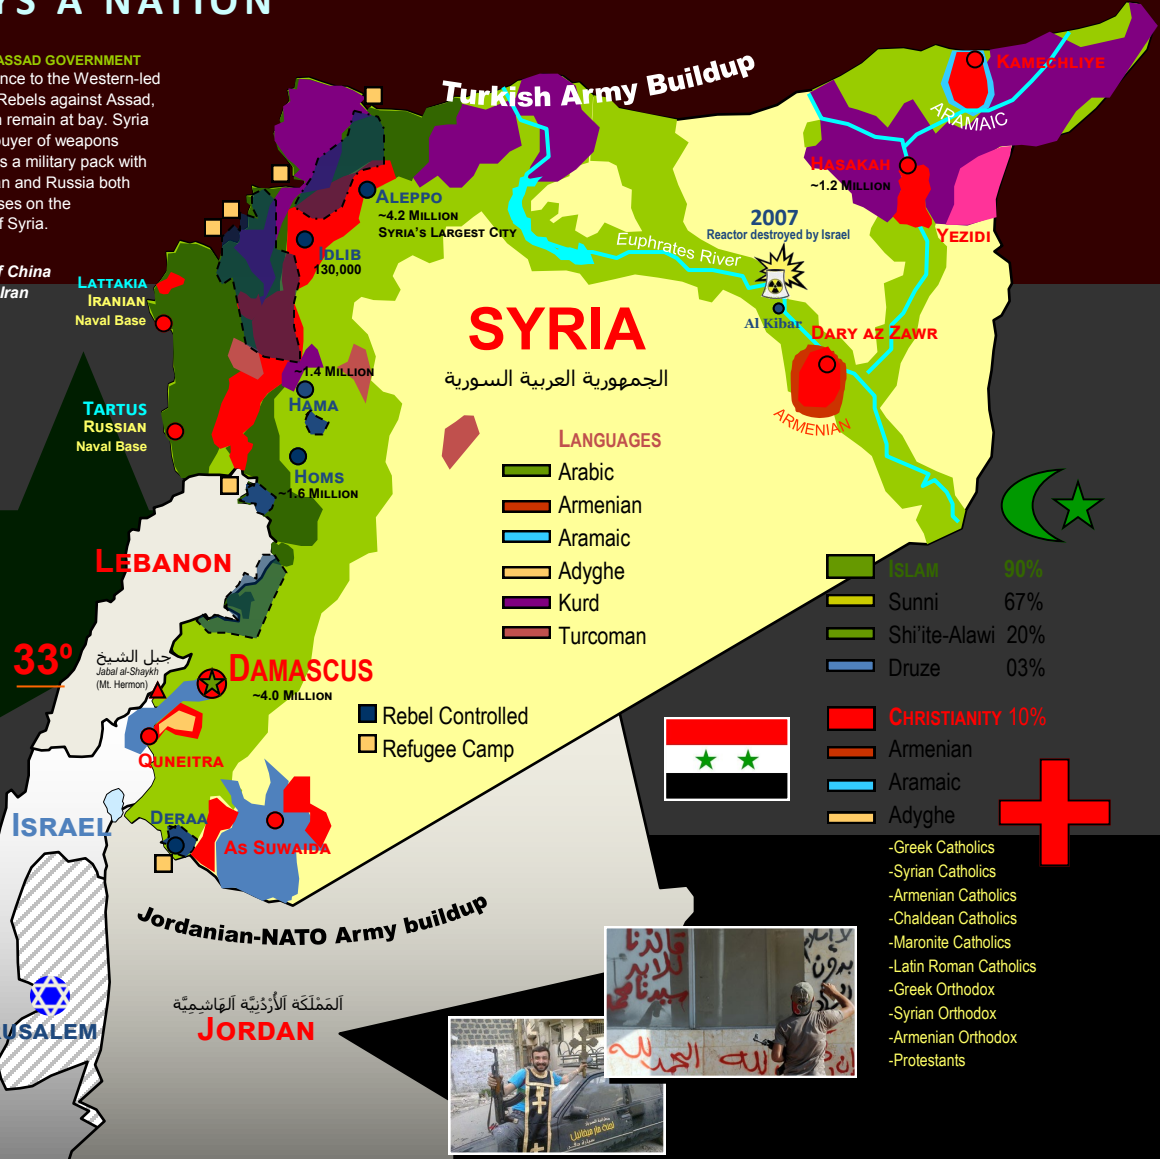

The Eradicating Christianity from the Middle East

RELIGIOUS AND ETHNIC CLEANSING

Under the majority Sunni population, Syrian minority Muslim groups like the **Alawi** as well as the Christians endured intense persecution. For centuries, these Alawi and Christian populations were marginalized and bared from political office or representation in any significant measure in Syrian politics. It was not until the desolation of the joint Syria-Egypt alliance in the mid 1960s that Alawi military officers took control of the political government through a military coup. Precisely, it has the father of the current Assad who took control. Having this joint history in common with the other persecuted Christian minority groups, the Alawi rulers of Syria thus better understand the need for tolerance and acceptance amongst ethnic and religious Syrian groups. Since the Assad regime has been in power in Syria, the various Christian communities, at least, had enjoyed a measure of reprieve from severe persecution by the Sunni Muslims.

The Jihadist Rebels are mercenaries from Arabia, Iraq, Libya, and al-Qaida. Their Islamic religion provides the only rallying cry; it is to rid the land of Christians and infidels. Such Jihadist are not interested in democracy nor human rights for non-Muslim minorities. Currently, a mass exodus of thousands of Christians is taking place in Syria, as the mainstream Western media only seems to glorify the Rebel's cause as a 'democratic' movement to the common 'People'. From Christian eye-witness accounts on the ground in Syria, the so-called freedom fighters in Syria appear just as concerned with the destruction of the Christians and Alawis as they are with political regime change and 'democracy'. For example, the Christian population of Qusayr, near Homs, has fled following an ultimatum issued by the Free Syrian Army commander, Abdel Salam Harba to convert to Islam, leave or be killed. Mosques in Rebel territory have also issued ultimatums for Christians to leave. There has been reports of rape, beheading and crucifixions. It is reported that at some Rebel Free Syrian leaders are publicly stating that Christians will have to be cleansed from rebel-held territory and will have no place in the new Islamic Syria. There are few places in the Middle East left where Christians can go. In other reports coming out from Human Rights Groups, they report that the Free Syrian Army are actually keeping some Christians from fleeing because they want to use them as bargaining chips with the West.

THE OBAMA DOCTRINE
 To America's and Obama's shame, the US joined the EU and NATO to support and fight along side al-Qaida in Libya against Kaddafi to topple his government. So too now in Syria, the USA, NATO, the CIA, MOSSAD & MI6 have been arming and/or transporting al-Qaida fighters and Jihadist mercenaries to Syria. This current 'Muslim Renaissance' is nothing more than a globalist attempt bent on a 'crusade' to slaughter, eradicate the non-Muslim minorities in an ethnic cleansing of most Christians, ironically supported by the Western 'Christian' West. This sweeping of so called 'democracy' movement that has been supported by Obama has only been used much like Hitler used democracy to gain power and then destroy it.
