Frandina Engineering announced it has acquired the records of Deborah Naybor Land Surveying.

Terms were not disclosed.

Frandina Engineering, located on Hertel Avenue in North Buffalo, specializes in both engineering work and land surveying. Acquiring the survey records and becoming the

legal successor to the records from Naybor, who recently retired, opens the door for Frandina to secure more repeat business from Naybor's clients.

Headed by [Rosanne Frandina](#), the firm is a certified WBE and DBE. Frandina Engineering was founded in 1976.
