WIRING Heating Systems

June 8 - June 11, 2021
Beckett Training Center
660 Main St., Fiskdale, MA
$1689.00 per student
8:00am - 4:30pm

**Instructor:
George Lanthier**

This class includes hands-on troubleshooting on gas and oil training equipment!

A complete course for those serious in learning electrical wiring, controls and advanced troubleshooting. The course was designed for electricians, gas and oil heating technicians and plumbers to master the knowledge and professional skills to work on and diagnose the state-of-the art heating control systems now in the field!

This *REVISED & EXTENDED* NEW *4 day* course will review the fundamentals of electricity, wiring and control systems and move on to the most advanced and complex control systems entering the field for the control of hot water, steam and warm air systems. Features trainer/ demonstrators specifically built to teach this program and includes hands-on training using multimeters and clamp meters. Subjects covered will include air system electronic controllers (ST9103) and the latest hydronic controls from Beckett, Hydrolevel and Honeywell. The trouble-shooting of PSC and ECM motors, electronic ignitors and oil and gas valves and controls using meters will be merged with traditional methods and techniques. Now features more hands-on! $1689.00 tuition includes an $1000.00 education fee, a $689.00 books and supplies fee and a $150.00 non-refundable Registration fee. *Students receive books, daily lunch, and Victor 81B multimeter with gas and oil accessories as part of class.*
