

WARD CITY COUNCIL
MAY 8, 2017
PUBLIC HEARING
6:00 P.M.

Mayor Brooke declared the Public Hearing open for discussion. Mr. Bob Adams requested he be recognized to ask a question of the council concerning the city's ability to pay the \$1,000,000.00 being requested and why the need for the loan. The mayor explained that because of the weight of water being held in the reservoir the walls had to be increased from 14 inches to 21 inches, this for cleaning purposes when one side is drawn down for cleaning and also since there was no room to expand the reservoir had to be dug deeper than anticipated. Along with all these changes there was a lot of unnecessary time wasted causing the project to fall behind its start date. There being no further questions the mayor declared the hearing closed.
