Folcroft, PA 19032

### Company Overview:

Educators For Education, E4E offers an array of on-site services that are designed to develop and improve the skills needed in K-12 education, early childhood education and other educational supports. We have over one hundred professional development and parent education titles and a variety of youth development and student achievement programs. E4E has a committed team of experienced trainers and youth development professionals that will guide your organization step-by-step through the process of creating a one of a kind improvement program. Possible areas of focus include student academics, school climate and discipline, teacher coaching, early childhood development, and parental services. Our youth development and student achievement programs are designed to create an exciting and engaging learning environment for students. Possible services may include tutoring, mentoring, job readiness, post-secondary education planning and other programs aimed at developing students' life skills.

### Differentiators:

- E4E gives your faculty and staff the skills needed to engage your students and create a supportive learning environment before, during and after school.
- E4E provides up-to-date, researched based strategies to assist administrators and teachers in preparing their students for the Keystone Exams.
- We provide effective hands-on, project-driven activities that are educational, fun, and full of excitement.
- Our goal is to give each student the tools needed to ensure success.
- We are excited to help those who work with our children to be the best they can be.
