- 2) Business English for Cambridge exams.** Professionals who wish to study for the Cambridge Certificates in Business English (BULATS) or IELTS will gain the skills and confidence they need to gain internationally recognised qualifications.
- 3) Business English for preliminary, intermediate and advanced English users.** Professionals who already know some English will learn to deliver presentations in English, negotiate contracts, participate in meetings, use the telephone and e-mail, and refine their spoken English to sound more like a native.
- 4) Conversational English for professionals who have studied some English before.** Participants will improve their confidence and refine the grammar of their spoken English through a bespoke programme of lessons exploring business scenarios and professional contexts.

Contact Us

We would be delighted to visit you in order to discuss your needs and develop a programme tailored to your needs and ambitions.

We think that the best way to decide whether our courses are for you is to book a *free* demonstration, where a group of your staff can enjoy a taster lesson and/or assessment of their current English level. We are certain you will be impressed, but this demonstration is obligation free, and can be arranged at a time convenient to you.
