## **ABOUT US**

Hummingbird is an industry leader in developing strategic communications and stakeholder engagement plans that utilize modern-day approaches based on robust cultural competency analyses. We are the connective tissue between large scale projects and impacted communities and serve as the translator for divergent viewpoints by building bridges between people and the "bottom-line". The Hummingbird team is comprised of professionals with a diverse set of subject matter expertise, which when combined, provide an interdisciplinary approach to problem-solving and hands-on execution.
