

## ChromeCare for Student Chromebooks

Cypress School District 64 has partnered with IT SAVVY to offer ChromeCare warranties for student chromebooks. This warranty is required before students will be issued a chromebook. The average cost to replace a chromebook screen is \$100. ChromeCare will cover parts and labor to fix any issues with the student's Chromebook. Turnaround time is typically 8-21 days and there is no cost for shipping. The cost for coverage for the school year is \$30.
