Flamingo Gardens has raised more than half of the \$450,000 needed to build a New Learning Center. Our old center is structurally unsound due to heavy use, the ravages of time, and damage from Hurricane Irma.

The center's primary purpose is to host the ecological education programs for students, as well as art, gardening, and environmental classes for adults. It will also provide additional exhibition space for special events, serve as a meeting space for affiliated groups and private functions, and lastly as a bunker for animals during a hurricane. It is scheduled to be built in 2020.
