RS-SERVER

MAIN FEATURES

- Creation and / or modification of labels and sharing of codest among the clients belonging to the same type of machine.
- Creation, modification and deletion of the database (PLU) and sharing among the clients belonging to the same type of machine.
(If by chance there are more MX Dynamic machines connected to the RS_Server software, all will have the same database (PLU) of processing updated as the database (PLU) of the server).
- Backup of all the weighs carried out on the machines connected to it, storing on a single database the information necessary to identify the machine and the measurement performed.

GWX Plus

WEIGH PRICE LABELER

TECHNOLOGY
QUALITY
PRECISION

GWX Plus

MAIN FEATURES

- Capacity: 3/6 kg - 1/2 g (optional 6000 div.).
- Working temperature: from 0 °C to + 40 °C.
- Power supply: 230 Vac (Hz 50/60).
- Resistive PC/Panel 10" display.
- Structure and carpentry in aluminum and stainless steel.
- Machine management by PLC.
- Print mode: thermal and/or direct transfer.
- Resolution: 8 dots/mm, **203 dpi** (optional: 12 dots/mm, 300 dpi).
- Print speed: 203 dpi, **457 mm/s** - 300 dpi, **300 mm/s**.
- Label sizes: from 40x40 to 110x110.
- Print width: 104 mm.
- Internal roll diameter: 76 mm.
- External roll diameter: **300 mm**.

TECHNOLOGY for Your Business

38 ppm

- Cadences up to: **38 ppm** model 38P (Stop and go operation).
- 2 motorized belts, with closed loop.
- Consumption: 0,85 kW.
- Label application with compressed air (**AIR BLAST**), 6 bar 60 l/min, firing camera multi-labels with mechanical adjustment and indicator of position.
- Mechanical movement **horizontal and vertical** printing unit.

45 ppm

- Cadences up to: **45 ppm** model 45P (Dynamic operation).
- 3 motorized belts, with closed loop.
- Consumption: 1,15 kW.
- Label application with compressed air (**AIR BLAST**), 6 bar 60 l/min, firing camera multi-labels with mechanical adjustment and indicator of position.
- Mechanical movement **horizontal and vertical** printing unit.

60 ppm

- Cadences up to: **60 ppm** model 60P (Dynamic operation).
- 3 motorized belts, with closed loop.
- Consumption: 1,15 kW.
- Label application with compressed air (**AIR BLAST**), 6 bar 60 l/min, firing camera multi-labels with mechanical adjustment and indicator of position.
- Label application with compressed air (**WITH ROTARY ARM**), 6 bar 40 l/min.
- Mechanical handling of **horizontal** printing unit, **vertical and rotational (180°)**.

GWX.AS2

GWX.AS2 Plus

MAIN FEATURES

- Capacity: 3/6 kg -1/2 g (optional 6000 div.).
- Resistive PC/Panel 10" display.
- Working temperature: from 0 °C to + 40 °C.
- Power supply: 230 Vac (Hz 50/60).
- Structure and carpentry in aluminum and stainless steel.
- Machine management by PLC.
- Print mode: thermal and/or direct transfer.
- Resolution: 8 dots/mm, **203 dpi** (optional: 12 dots/mm, 300 dpi).
- Print speed: 203 dpi, **457 mm/s** - 300 dpi, **300 mm/s**.
- Label sizes: from 40x40 to 110x130.
- Print width: 104 mm.
- Internal roll diameter: 76 mm.
- External roll diameter: **300 mm**.
- Label application from below with electronic motorized belt.
- Linear movement on bearings for printing unit position.

45 ppm

- Cadences up to **45 ppm** model 45P.
- 4 motorized belts, with closed loop.
- Brushless motors and drive cards, speed up to 70 m/min.
- Consumption: 1,4 kW.
- Label application with compressed air (**AIR BLAST**), 6 bar 60 l/min, firing camera multi-labels with mechanical adjustment and indicator of position.
- **Horizontal** and **vertical** printing unit mechanical movement.

60 ppm

- Cadances up to **60 ppm** model 60P.
- 4 motorized belts, with closed loop.
- Brushless motors and drive cards, speed up to 70 m/min.
- Consumption: 1,4 kW.
- Label application with compressed air (**AIR BLAST**), 6 bar 60 l/min, firing camera multi-labels with mechanical adjustment and indicator of position.
- Label application with compressed air (**WITH ROTARY ARM**), 6 bar 40 l/min.
- Mechanical handling of **horizontal** printing unit, **vertical** and **rotational (180°)**.

GWX Maxi Plus

WEIGH PRICE LABELER

TECHNOLOGY

GWX Maxi Plus

MAIN FEATURES

- Capacity: 15/30 kg - 5/10 g.
- Working temperature: from 0 °C to + 40 °C.
- Power supply: 230 Vac (Hz 50/60).
- Resistive PC/Panel 10" display.
- Structure and carpentry in aluminum and stainless steel.
- Machine management by PLC.
- Print mode: thermal and/or direct transfer.
- Resolution: 8 dots/mm, **203 dpi** (optional: 12 dots/mm, 300 dpi).
- Print speed: 203 dpi, **457 mm/s** - 300 dpi, **300 mm/s**.
- Label sizes: from 40x40 to 110x110.
- Print width: 104 mm.
- Internal roll diameter: 76 mm.
- External roll diameter: **300 mm**.
- Mechanical handling of **horizontal** printing unit, **vertical** and **rotational (180°)**.

30 ppm

- Cadences up to: **30 ppm** model 30P (Stop and go operation).
- 2 motorized belts, with closed loop.
- Brushless motors and drive cards, speed up to 50 m/min.
- Consumption: 2.05 kW.
- Label application with compressed air **(WITH ROTARY ARM)**, 6 bar 40 l/min

60 ppm

- Cadences up to: **60 ppm** model 60P (Dynamic operation).
- 3 motorized belts, with closed loop.
- Brushless motors and drive cards, speed up to 50 m/min.
- Consumption: 2.9 kW.
- Label application with compressed air **(WITH ROTARY ARM)**, 6 bar 40 l/min.

MX Dynamic

MAIN FEATURES

- Cadences up to **110 ppm**.
- Capacity: 3/6 kg - 1/2 g (optional 6000 div.).
- From 2 to 4 motorized belts, with closed loop.
- Belt widths matched only with printer from above: 95 - 140 - 185 - 230 - 275 - 320.
- Belt widths matched with printer from above and/or from below: 230 - 275 - 320.
- Brushless motors and drive cards, speed up to 70 m/min.
- Working temperature: from 0 °C to + 40 °C.
- Power supply: 230 Vac (Hz 50/60).
- Consumption: up to 2 belts 0,85 kW - up to 4 belts 1,15 kW.
- Resistive PC/Panel 10"/12" display.
- Structure and carpentry in aluminum and stainless steel.
- Machine management by PLC.
- Print mode: thermal and/or direct transfer.
- Resolution: 8 dots/mm, **203 dpi** (optional: 12 dots/mm, 300 dpi).
- Print speed: 203 dpi, **457 mm/s** - 300 dpi, **300 mm/s**.
- Label sizes: from 40x40 to 110x110.
- Print width: 104 mm.
- Internal roll diameter: 76 mm.
- External roll diameter: **300 mm**.
- Label application with compressed air (**AIR BLAST**), 6 bar 60 l/min, firing camera multi-labels with mechanical adjustment and indicator of position.
- Label application with compressed air (**WITH ROTARY ARM**), 6 bar 40 l/min.
- Mechanical handling of **horizontal** printing unit, **vertical** and **rotational (180°)**.

SPM Plus

MAIN FEATURES

- Working temperature: from 0 °C to + 40 °C.
- Power supply: 230 Vac (Hz 50/60).
- Consumption: 15,6 W.
- Resistive PC/Panel 10"/12" display.
- Structure and carpentry in stainless steel.

Main features labeller:

- Labeller model TDP-247 Plus direct, external power supply, 203 dpi resolution, print speed up to 127 mm/s, maximum print width 104 mm.
- Labeller model TTP-246M Pro thermal transfer and/or direct, 203 dpi resolution, print speed up to 203 mm/s, maximum print width 104 mm.
- Labeller model TTP-247 Plus thermal transfer or direct thermal with cable USB 1,5 m for PC connection, external power supply, 203 dpi resolution. Peel off.
- Labeller model TTP-2610MT thermal transfer and/or direct transfer with 1,5 m USB cable for connection to PC, internal power supply, 203 dpi resolution, 168 mm print width. Peel off kit for TTP-2610MT (incl. Internal rewinder and peel off).

Main features platform

- Weighing platforms in stainless steel, operating with single point load cell according to OIML R60 with protection against dust and moisture, dimensions: 250x350 - 400x400 - 500x500 - 600x600, capacities from 3 kg to 300 kg.

CX Dynamic

CHECKWEIGHER

TECHNOLOGY

PRECISION

CX Dynamic

MAIN FEATURES

- Cadences up to **165 ppm.**
- Capacity: 1,5/3/6 kg - 0,5/1/2 g (optional 6000 div.).
- From 1 to 3 motorized belts, with closed loop.
- Brushless motors and drive cards, speed up to 90 m/min.
- Working temperature: from 0 °C to + 40 °C.
- Power supply: 230 Vac (Hz 50/60).
- Consumption: 1/2 belts 0,3 kW - 3 belts 0,6 kW.
- Resistive PC/Panel 10" display.
- Structure and carpentry in aluminum and stainless steel.
- Machine management by PLC.
- Piston ejector, pneumatic arm or air blow (optional).
- LED light column out of tolerance.
- Adjustable stainless steel product guides (optional).

CX 95 Dynamic

- Cadence 95x400
- Weighing 95x400
- Ejector 95x570

CX 140 Dynamic

- Cadence 140x400 - 140x510
- Weighing 140x400 - 140x510
- Ejector 140x570/750

CX 185 Dynamic

- Cadence 185x400 - 185x510
- Weighing 185x400 - 185x510
- Ejector 185x570/750

CX 230 Dynamic

- Cadence 230x510
- Weighing 230x510
- Ejector 230x570/750

CX 275 Dynamic

- Cadence 275x510
- Weighing 275x510
- Ejector 275x570/750

CX 320 Dynamic

- External diameter of the roll: **300 mm**.
- Label application with electronic motorized belt, dimensions up to 110x400 mm.

TMS/TMS.M

METAL DETECTOR

MONOFREQUENCY/MULTISPECTRUM

TECHNOLOGY
QUALITY
PRECISION

- Structure and carpentry stainless steel.
- Brushless motor and drive card.
- Adjustable belt speed up to 50 m/min.
- Control Power available according to the Standards UL 508A and CSA-C22.2 No. 14-05.
- Light column with LED technology.

MAIN FEATURES PROBES

- Superior detection capability of magnetic and non-magnetic metal contaminants including stainless steels.
- Effective compensation of the product effect.
- Complies with FDA 21CFR regulation Part 11: Safety; Integrity; Traceability of data.
- Structure in AISI 316L stainless steel and plastic materials compatible with foods compliant with EU, FDA.
- Superior construction able to withstand high pressure washes.
- High Sensitivity to all magnetic and non-magnetic metals including stainless steels.
- Multifrequency technology for maximum sensitivity to varying the Product Effect.
- High immunity to environmental disturbances.
- Structure and components in AISI 316L stainless steel with IP65 degree of protection.
- Self-acquisition and automatic tracking effect product.
- 250 storable products, selectable from local programming or network software.
- 1.000 archived events.
- Alphanumeric display with 4x20 characters.
- Local programming: 4 keys, of which 3 with double function.

LC-2D TOP

MAIN FEATURES

TECHNOLOGY for Your Business

- Digital barcode reader IP65.
- Sensor: CMOS image.
- Number of pixel: 1280x1024.
- Light source: red LED high intensity.
Luminous pointer source: green LED high-intensity;
adjusting the focus: auto focus.
- Reading distance: from 110 to 1000 mm. Minimum
2D resolution: 0,063 mm.
- Minimum resolution barcode: 0.082 mm.
- Supported code: QR, micro QR, data matrix (ECC200),

- GS1 data matrix, PDF417, micro PDF417, GS1
composite (CC-A, CC-B, CC-C).
- Barcode: GS1 databar, CODE39, CODE39 Full ASCII,
ITF, NW-7 (codabar), CODE 128, 2of5 (industrial 2of5),
COOP 2of5 GS1-128, JAN/EAN/UPC, trioptic CODE 39,
CODE93, pharmacode.
- Ambient temperature: from 0 °C to 45 °C.
- Ambient storage temperature: from - 10 °C to + 50 °C.
- Humidity operating environment: from 35 to 95%
relative humidity, without condensation.

SW-CUSTOM LABEL

MAIN FEATURES

- SW-Custom Label is a program for printing and editing labels. It is possible to create labels with great simplicity and without neglecting the graphic aspect.
- Thanks to SW-Custom Label, the purpose of the label will not only be to transfer the typical information, but also to promote a product.
- This is possible thanks to targeted instruments that easily create impact effects that attract attention.
