

Peoples Foundation
In-class Guest Speaker Request Form
Speak to Youth...Impact-A-Life

The Peoples Foundation “In-Class Mentoring” program was started as a way to impact children’s life everyday. We can do that by meeting the children where they are and where they are potentially at need, or as some may call it “at-risk.” We meet that need by being an active participant along with the teachers and administrators of school programs. We volunteer in our local schools and support the need for a positive role model bringing in inspiring guest speakers to ignite passion for in the youth to continue their education and pursue new and exciting careers in technology. We support local schools, teachers by arranging the speaker events based on desire, schedule and need. Our hope is that this program could reach a child in a meaningful way. Trying something, instead of watching our children slip-sliding into bad activity and falling victim to the school-to-prison-pipeline...and losing HOPE.

The Peoples Foundation in-school mentor/guest speaker program hopes to be the community partner that helps change that dynamic By standing along side our community members and teachers not just outside of school but inside of school to help change that dynamic

We generally prefer to have a memorandum of understanding, memorandum of agreement (MOU/A) in place; between our organization and the school/board prior to committing to our guest speaker arrangements. But we understand at times those take some time to get approved. So, until we finalize the MOU/A between ourselves and the requesting organization; we can operate on simple request forms to initiate the support.

Please complete this simple request form and our team will get started on gathering the information to arrange your guest speaker to support the youth in your school.

Teacher/Administrator: _____

School/Address: _____ Rm. _____

For Dates: _____

Times: (Or Attach Your Bell/Class Schedule)
