Dear Kris;

I would like to recognize you and your firm for a job well done and extend my appreciation for your efforts. I have always appreciated your honest counsel and advice, the hard work and pride that go into your work, the dedication to excellence and high standards which you have established and consistently achieve.

As we have continued further in the virtual construction and coordination aspect, it is becoming increasingly apparent there are not enough players in this industry that are really outstanding performers in this field. However, equally apparent is that your firm is one of the best in the business and we have been fortunate to have you on our team.

Again, thank you for your efforts, please keep up the excellent work and I hope that we have another opportunity to work with each other in the near future.

Very truly yours,
