12 November 2021

CONSUMER INFLATION HITS 30-YEAR HIGH OF 6.2% IN OCTOBER; CORE RATE AT 4.6%

Consumer prices accelerated at the fastest annual pace in more than 30 years as supply chain bottlenecks and materials shortages persisted and gasoline prices surged. Consumer inflation climbed 6.2% year over year in October, the largest annual gain since November 1990. Prices rose 0.9% month over month. COre inflation advanced 4.6%.

In addition to certain products being hard to find, the prices for almost everything, including used items, are higher. Food prices edged up 0.9% last month as the food at home category saw a 1% increase, according to the Labor Department. All food prices are up 5.3% year over year.

Also contributing to the rise were new and used vehicle prices, which in October rose 1.4% and 2.5%, respectively. Prices for new vehicles were 9.8% above year-ago levels while used vehicle prices were up 26.4% from October 2020.

Energy prices, meantime, jumped 4.8% last month and were up 30% over the past year. The October increase was largely the result of a 6.1% rise in the cost of gasoline. U.S. households that primarily rely on heating with propane will spend nearly 50% more during this heating season.

STRATEGICALLY FOR CREDIT UNIONS

Rising inflation is eating away at strong gains and wages and salaries that American workers have seen in recent months (average hourly wages in the U.S. actually fell 1.2% last month compared with October 2020 when accounting for inflation).

The price squeeze has been bad news for both an administration in denial and Federal Reserve policymakers, many of whom have been downplaying the recent spike in consumer prices as "transitory".

That irresponsible viewpoint certainly was challenged once again this week by a significant jump in the price for a wide range of items: Gasoline skyrocketed by nearly 50% in the year to October, meat was up 14.5% and rent increased by 3.5%.

Fueling the price spikes are several issues related to the pandemic and the rousing economic rebound from the worst downturn in nearly a century. In the wake of lockdown orders that saw a broad swath of the country shut down, the economy staged a stunning comeback, powered by unprecedented levels of government spending, emergency steps by the Fed and the widespread distribution of vaccines.

As Americans – flush with stimulus cash – ventured out to shop, eat and travel, businesses struggled to meet the demand, reporting difficulties in onboarding new employees and buying enough supplies to satisfy the need. Many businesses, in order to attract new talent, hiked wages – but to offset those increases, employers have reported raising the prices of their products.

ECONOMIC RELEASES

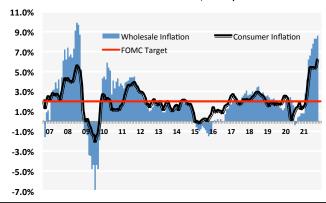

RELEASES THIS WEEK:	Current	Projected	Previous
