

The LBVCA Board is issuing the below clarification regarding access and use of the Burn Pile:

The Burn Pile is an asset to all LBV owners for disposal of their yard debris such as tree limbs, brush and leaves. It was never intended to be a drop site for Contracted / Commercial use.

Contracted / Commercial companies dumping yard debris at the Burn Pile is prohibited and is in violation of LBV policy. When a LBV owner hires a company to perform yard work the debris from that job needs to be removed from LBV, NOT taken to the Burn Pile.
