NON-GMO STATEMENT

To Whom It May Concern:

The purpose of this document is to verify that all of the certified organic products processed, packaged and distributed by Mountain Rose Herbs are Non-GMO, and that they have not been grown, cultivated, harvested, handled, or processed with the influence of Genetically Modified Organisms.

To the best of our knowledge and through the verification efforts of our growers and suppliers, all of the products which are not certified organic (cultivated without chemicals or wildharvested) are also free of GMO inputs and they have not been grown, cultivated, harvested, handled, or processed with the influence of Genetically Modified Organisms.

In addition to this all of the organic products offered by Mountain Rose Herbs have not been grown, harvested, handled or processed with irradiation or chemical sterilization treatments, which includes harmful synthetics, sewage sludge, pesticides, formaldehyde, or sulfites.

Please contact us at the address below if you have any further questions.

Best regards,

Shawn Donille
Vice President
