DUNN'S VALVE TESTER INC

Leasing Program Outline:

Dunn's Valve Testers (DVT) want to partner with our new and existing customers.

We can help during the busy times without purchasing a new machine, by offering a DVT Leasing program. Leasing terms will be flexible and tailored to your business needs.

To secure a leased machine for your business, use the 3 step process below:

Brief History:

Dunn's Valve Testers Inc have been manufacturing Valve Testers since 1978. We were the first to introduce valve testers and set the standard for all valve testing. We strive to maintain that level of Durability Value and Technology well into the future.

Our Valve Testers provide a method of accurately and speedily testing valves at a relatively low cost per unit and designed with the test operator in mind.

DUNN'S VALVE TESTERS ADDITIONAL SERVICE WITH LEASE

We currently have a small maintenance program with some of our local customers and it's not uncommon to have a tester from the 1980's is running just strong as it did when manufactured. We want your DVT machine to last just as long. To help you achieve a "Fit for Life" DVT unit. We recommend every 6 monthly visit, to maintain its working capability.

DATA ACQUISITION SYSTEM

The system is designed to capture, display and store data during a test. This system is designed around an eight channel Sensor Interface Board on a PC platform. The software serves the function of file management, calibrating and zeroing the transducers and capable of printing a final report.

PROGRAM IMPLEMENTATION

STEP 2 - Call DVT Houston office to setup a meeting with our director to explain the Leasing Program, tailored for your testing requirements:

1. Leasing Contract
2. Schedule Rates
3. Delivery

STEP 3 - END LEASE TERM - Call DVT Houston office to setup a pick up date for your leased machine
