

The CBI Monthly

"I Don't Know What I am Doing" Podcast

The 1st period 8th Grade class started recording a podcast every Friday. The point is to open up and talk about their future, goals, and future. You can check it out here.

[I Don't Know What I am Doing](#)

Welcome

By Destiny Mutchler

Hello, West Branch Students, and welcome to another newsletter. Only 3 months left in this school year and, depending on who you are, this may or may not be a good thing. A lot of us will miss our friends but some of us are just excited to get this year over with. Most CBI students aren't ready to let go yet ever since we started working on our podcast. The podcast is an effective way to communicate our dreams and goals in life to our peers and, ever since we started last month, it's been the thing we look forward to every Friday! Ask anyone in our class and you'll realize that the thing they'll miss most about this school year is CBI and it isn't very hard to see why.

Successful

By Katy Edwards

How do you define 'success'? Success is when you know you've made it. A positive outcome after hard effort and useful experience. When you've worked really hard to achieve the things you want in life. It provides a light of motivation for people to change their lives and values.

Six Facts about Elephants!!

By Alinee Bocconi

1. There are 3 different types of elephants, African forest, African Savannah, and Asian.
2. A baby elephant can stand for 20 minutes after its birth.
3. Elephants are pregnant for 22 months which is the longest time a mammal is pregnant.
4. Elephant trucks never stop growing.
5. They spend 12-18 hours a day eating grass, plants, and fruit.
6. Elephants are the biggest land animal.

Contact Mr. Davis

There are a couple of ways to contact Mr. Davis.

Jokes

By Audrey Eaton

If you are one of those people that like to be funny and tell jokes then here are 15 jokes that you should tell a friend. There are varieties of jokes I put here for you to use. Some of these may be dad jokes or just normal regular jokes but all of them are funny. So, go try these on a parent, friend, sibling, or teacher and see if you get them to laugh.

1. Why do we tell actors to take a break? **Because every play has a cast.**
2. Hear about the new restaurant called Karma? **There's no menu: You get what you deserve.**
3. Did you hear about the actor who fell through the floorboards? **He was just going through a stage.**
4. Why don't scientists trust atoms? **Because they make up everything.**
5. What does a nosy pepper do? **Gets jalapeño business!**
6. "Why don't eggs tell jokes? **They'd crack each other up."**
7. "When two vegans get in an argument, is it still called a beef?"
8. "Did you hear about the kidnapping at school? **It's okay, he woke up."**
9. "What do you call a fake noodle?" **"An impasta."**
10. "Where do math teachers go on vacation?" **"Times Square."**
11. "What do clouds wear?" **"Thunder wear."**
12. "What do you call a hot dog on wheels?" **"Fast food!"**
13. "Why can't a nose be 12 inches long? **Because then it would be a foot."**

Dad Jokes

By Katlynn Kiko

Why do fathers take an extra pair of socks when they go golfing?

Answer: In case they get a hole in one

Why do people love mushrooms?

Answer: They are fungus

Where do fruits go on vacation?

Answer: Pear-is!

What do you call a poor Santa Claus?

Answer: St. Nickel-less

Did you hear the rumor about butter?

Answer: Well, I'm not going to spread it

Why can't a nose be 12 inches long?

Answer: Because then it would be a foot.

How do you make a tissue dance?

Answer: You put a little boogie in it.

The Computers History

By Jadon Randlett

The First Computer

The first modern-day computer was made in 1996 but there is one item that is considered the first programmable computer was made in 1943 and the first thing considered a computer was made by Charles Babbage in 1822.

The Transformation to Gaming Computers

The first gaming computer was made in 1951 by John Makepeace Bennet. It wasn't until the early 2000s and late 90s that people started playing modern-day games on computers like call of duty. We soon expanded the internet range and made the computers more efficient which allowed us to make nicer and nicer games.

Computers Today

Computers still play a large role in technological advancements and in work. They are starting to be used in school for almost everything and they helped the crypto market. The computer is still a large part of our everyday lives and can help us connect with people from around the world.

The 208 Show

The 7th period 8th grade class has created a new show! It is called "The 208 Show". Each week they will talk about sports, movies, what is going on at West Branch, and they will preview a career.

The students wanted an outlet to do something creative and fun. There will be a new episode out each week. Currently there are two episodes available.

You can check out the show
here!
