

GET IN THE ZONE WITH GROZONE

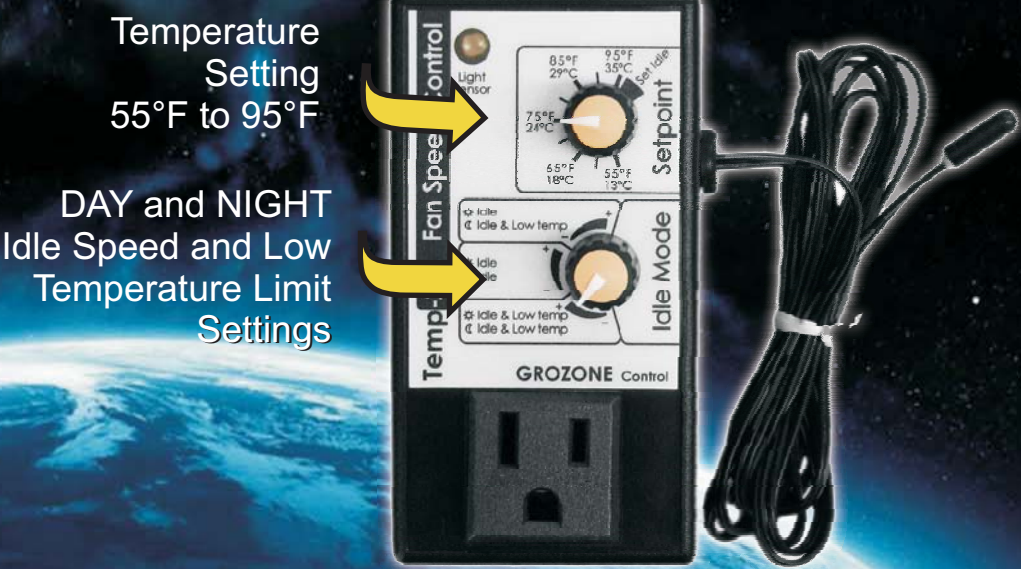

GROZONE FAN SPEED CONTROLLERS

Say goodbye to manually setting your dimmers and wildly fluctuating temperature levels. Designed specifically for use with your centrifugal exhaust fans, GROZONE's TV1 and TV2 are the ultimate in reliable and easy to use variable fan speed controllers. Simply set your day and night temperatures and the TV1 and TV2 will speed up or slow down your cooling fan automatically to maintain your exact set temperatures. By maintaining a controlled and constant indoor garden temperature you allow for less variation in humidity and fewer bug problems.

TV1: Day/Night Control

TV2: Multimode Control

DIM-1: Manual Control

	TV1	TV2	DIM-1
Temperature Setting(s)	DAY and NIGHT Settings	Single Setting	NO, power setting only
