DIFFERENTIATORS

The owner/principal consultant is an internationally known security expert with an extensive global presence in public safety and security, as well as a retired military police officer and Desert Storm Veteran.

The owner/principal consultant has built an extensive professional network during his 23 years of service at the world's busiest and most efficient airport, Hartsfield-Jackson Atlanta International Airport.

The owner/principal consultant provided executive public safety and security management and oversight for the aviation security program by delivering exceptional airport law enforcement, fire suppression, emergency medical services, safety management, emergency preparedness, security, and airport communications.

The owner/principal consultant has served as:

Chairperson: Airport Council International World Standing Security Committee

Chairperson: Airport Council International-North America Public Safety and Security Committee

Chapter Chairperson: ASIS International, Greater Atlanta Chapter
