

### CODE PUNCH MACHINE

- Patented code card system allows an easy changeover from one manufacturer to another
- Compact and completely portable; weighs only 16 lbs
- No electricity needed; can be used anywhere
- Able to be transported easily
- Includes: PCH-14 for large standard keys, & PCH-1011 for small standard keys., PCH-47 for foreign automotive, 104 code cards including 4 micrometer cards
- Measures: 9"W x 12"D x 6-1/4"H
- Weight: 23 lbs

### POWER SPEEDEX® SEMI-AUTOMATIC DUPLICATOR

- Has a spring-loaded carriage with safety release. This design allows the carriage to move smoothly with the use of one hand when cutting keys
- 4-way jaws enable it to hold a large variety of different key blanks, including double sided keys
- Reversible copy dog allows you to cut flat steel keys with the optional slotting cutter kit (CW-16KIT)
- Mounted on a sturdy base and equipped with the HPC Softie™ de-burring brush
- Durable construction and bronze bearings combine for a long lasting, accurate machine
- Motor: 120VAC (1/6 hp, 3.6 amps)
- Weight: 35 lbs

### ECONO TUBULAR MACHINE

- Duplicates 7-pin standard size tubular keys with spaces in any position and cuts of any depth
- Can also duplicate a key from an HPC tubular pick
- Provides an economical key cutting solution for standard size tubular keys
- Motor: 115VAC (1/15 hp, 1.5 amps)
- Weight: 11 lbs

### 008 MINI-MITE 12VDC DUPLICATOR

- Measures only 8" x 5-1/4" x 4"
- Weight: 9 lbs
- High speed 8000 RPM 1/5 hp motor cuts keys in seconds
- Equipped with 23RF rotary file cutter
- Special, four sided key rake for deburring keys
- Wide spacing between vise jaws accommodates longer key blades (automotive) and large bow (hotel/motel) keys
- Super Jaw 1, 2-position vise jaws securely clamp and index a variety of keys without adapters including double sided types
- 12VDC model

### 044 HD PERFORMANCE SERIES SEMI-AUTOMATIC (LEVER) OPERATION

- Motor: 110V 1/4Hp, 1725 rpm, works with 500 watt power inverters.
- Vise Jaws: Super Jaw 3, four-position
- Cutter: P-CU20 (Titanium coated)
- Weight: 28.3 lbs
- Wide spacing between vise jaws; accommodates new longer key types
- Dial type depth adjustment system greatly simplifies calibration and improves accuracy
- Four-way reversible vise jaws securely clamp residential, padlock, and automotive keys without adapters, including double-sided types
- Spring loaded carriage provides consistent cutting pressure which reduces potential for miscuts
- Has "soft touch" deburring brush and chip tray

## BRAVO III WITH EZ-JAW™ SEMI-AUTOMATIC (LEVER) OPERATION

- Motor: 110V standard; 1/4 Hp capacitor start
- Vise Jaws: Four position EZ-Jaw™
- Cutter: CU50A milling cutter, flat left side, cobalt steel ensures a smooth, clean, accurate cut every time
- Dimensions: 15"W x 20" D x 10" H
- Weight: 47 lbs
- Carriage is spring loaded, provides consistent cutting pressure, and reduces potential for miscuts
- Automatic cutter start feature controlled by micro-switch, that is activated by raising or lowering the carriage
- Precise adjustments. A tracer point with micrometer regulation that makes it quick and easy to adjust depth of cut
- Carriage release button can only be activated when the key gauges are in the down position
- Two carriage shafts ensure sensitivity and precision in the cutting movement

## EZ™ CODE ELECTRONIC CODE MACHINE & DUPLICATOR - CYLINDER/AUTOMOTIVE KEYS

- 2-position Vise Jaw securely grips keys
- Patent pending "Automatic Edge Detection" compensates for slight taper due to "clamping errors"
- The internal database contains manufacturer specifications for hundreds of commercial and automotive applications plus over 200 popular indirect code series
- "Design-A-Key" feature allows the operator to input and store customized data to cut newly released keys
- Dependable accuracy with X-Y tolerances within +/- .002"
- Automatic depth calibration eliminates potential errors related to manual techniques
- Expanded indirect automotive code capability is available by connecting to a PC loaded with the optional Kreate-A-Key® Code Software
- Cutter: AT-U01 aluminum titanium nitride coated HSS (ideal for cutting hard material in a dry environment)
- Precision ball bearing cutter spindle system for minimal vibration and maintenance
- Size: 10.5" W x 19.5" D x 9" H (14" with shield raised)
- Weight: 52 lbs

EZ CODE	100504

## MATRIX S HIGH SECURITY MANUAL KEY DUPLICATOR

- Duplicates sidewinder/laser and simple dimple style keys.
- Precision, "Sure Grip" vise jaws feature replaceable clamping surfaces
- Electronic adjustment feature eliminates the guesswork; machine calibration is a snap
- Roller bearing equipped carriage design will virtually eliminate vibration when cutting keys
- Built-in light illuminates cutting area of machine
- Ergonomic design requires minimal effort to operate
- Built-in compartment for organized accessory storage
- Included cutters and cutter guides allow for duplicating a broad range of automotive keys (internal and external laser track) and various commercial dimple types.
- Expand capabilities with the optional cutters and accessories
