

MEEKS, SHEPPARD, LEO & PILLSBURY LLP is pleased to announce the availability of our newly published *POLYMERS AND RUBBER CUSTOM CLASSIFICATION MANUAL*, a Resource for Understanding Polymers and Rubber in Primary Forms in Chapters 39 and 40 of the Harmonized Tariff Schedule. This follows publication earlier this year of our *CHEMICAL CUSTOMS CLASSIFICATION MANUAL*, a Resource for Navigating Chapters 28 and 29 of the Harmonized Tariff Schedule. Both manuals were authored by Andrea “Andy” Abraham, Esq. of our firm.

The purpose of these manuals is to provide Customs brokers, import managers and others in the international trade community with a one-of-a-kind resource to aid in classifying chemicals and polymers in Chapters 28 and 29 or 39 and 40 of the U.S. Harmonized Tariff Schedule (HTS). While these manuals are written with the U.S. HTS in mind, it provides guidance for HTS classification to the sixth digit and should be a valuable tool for compliance in other countries that have implemented the Harmonized Commodity and Coding System (HS).
