

# THE HOLY OF HOLIES TOMB

This study suggests that the Garden Tomb configures the same space dimensions as that of the Tabernacle of Moses and the Temples of YHVH. Such were a facsimile of the true one Heaven. Many researchers have also concluded that the entire Tabernacle and Temple blueprints follow the mathematical proportions of an 'anthropomorphic body' or form of a man. This would stand to reason as Jesus Christ admonished the corrupt Jewish religious leaders of His day when they demanded a 'Sign' to authenticate His Messiahship. Jesus said none would be given to such an adulterous generation except the Sign of Jonah and that if they 'destroyed the Temple, He would raise it up in 3 days'. For example, from the Dome of the Tablets that this study suggests is where the Holy of Holies once stood and will, there are some unique mathematical distances linked to it. For example, it has a 322 degree heading to the purported true crucifixion site as postulated by Ron Wyatt. There are approximately .72 km to the site as the sacred numbers suggest and also used by the Luciferian esoteric secret societies. The angle to the Skull façade is at a 33 degree angle also.

## HOLY OF HOLIES

It appears that mathematically the place where the body of Christ was laid to rest corresponds to the phi ration spiral depiction. Its as it were a 'Holy of Holies'.

**Blood Atonement**

Based on Ron Wyatt's theory and eye-witness, the side wound of Jesus corresponds to were the Ark of the Covenant blood stain was located and sample taken.

Based on Ron Wyatt's theory and eye-witness, the blood of Jesus ran down the crevasse some 20 yards deep to were the Ark of the Covenant was hid in a container. The lid fractured due to the earthquake.
